March 19, 2024

To the Board of Commissioners and the Citizens of Kent County:

State law requires that all local governments, subject to certain size criteria, publish within six months of the close of each fiscal year a complete set of financial statements presented in conformance with generally accepted accounting principles (GAAP) and audited in conformity with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants. Pursuant to those requirements, we hereby issue the annual comprehensive financial report for the County of Kent. In 2023, Kent County adopted a September fiscal year end. This annual comprehensive financial report is for the fiscal year ended September 30, 2023.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal controls should not exceed the anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Rehmann Robson, Certified Public Accountants, has issued an unmodified ("clean") opinion on the County's financial statements for the period ended September 30, 2023. The independent auditors' report is located at the front of the financial section of this report.

The Management Discussion and Analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and it should be read in conjunction with it.

Profile of the Government

The County of Kent encompasses an area of approximately 864 square miles and is located in the central west portion of Michigan's Lower Peninsula. The County of Kent is the fourth most populous County in the state of Michigan (State) with a 2022 estimated population of 659,083. It is approximately 64 miles west of Lansing, the state capital. The County is empowered by the State to levy a property tax on real and personal properties located within the County.

The County is composed of twenty-one townships, five villages and nine cities. The 2020 census population of the County resides as follows: townships (254,017); cities (395,999); and villages (7,958). The County seat is located in the City of Grand Rapids, which is the second largest city in the State. The County was organized as a County by the territorial legislature on March 24, 1836.

The County is governed by a Board of Commissioners (Board) whose numbers have ranged from as few as three in 1836 up to as many as 77 in 1968. As a result of a United States Supreme Court decision in 1969, the number of commissioners was reduced to 21. The Board took action in 1992 to reduce further the number of members to 19 effective January 1993. Kent County returned to 21 Commissioners effective January 2023 with the addition of two seats due to changes in district boundaries. The Board is responsible for establishing policies, adopting the budget, appointing committee memberships, and hiring the County Administrator/Controller. The Administrator/Controller is responsible for carrying out the policies set forth by the Board and overseeing the day-to-day operations of the County. The Board is elected on a partisan basis every two years from districts of approximately equal size. The other five elected officers of the County, which include the Sheriff, Clerk/Register of Deeds, Prosecuting Attorney, Drain Commissioner and Treasurer, are elected on a partisan basis serving four-year terms.

The County provides a wide and varied range of services in the following areas: law enforcement, correctional facility, three court systems, fire apparatus procurement, social services, community and economic development, both State and County funded public health, and a park system as well as administrative services which support all operations. The Department of Public Works manages a waste-to-energy incinerator, single stream recycling center and landfill operations. The Kent County Drain Commission, a component unit, is responsible for the construction and maintenance of County drains and the control of lake levels. The Airport Authority, a component unit, is responsible for the operation of the Gerald R. Ford International Airport. In addition, the Road Commission is a component unit providing maintenance to County roads.

Annually, the Board is required to adopt a final budget by September 30 for the subsequent fiscal year. This budget serves as the foundation for the County's financial planning and control. The budget is prepared by fund, function (e.g. public safety) and department (e.g. Sheriff). Department heads may transfer resources within the activities they manage up to Board-approved appropriation amounts. These activities may reside in different funds. In special instances related to grants, the County Administrator/Controller is authorized to make budget adjustments within and between categories of budgets up to 15% of the grant appropriation. Transfers between departmental budgets and above administrative amounts set by the Board need special approval from the governing body.

Local Economy

Commercial/Industrial Base

The Grand Rapids-Wyoming Metropolitan Statistical Area (MSA), of which the County is the hub, has been one of the fastest growing regions of the United States. Numerous expansions, renovations, constructions, modernizations and developments have been completed, are in the process of being completed or are in the planning stages. Among the factors which have

encouraged major projects and have attracted numerous firms from outside the area are: a strong but highly diversified base of industries, an excellent work force, educational opportunities, excellent employer/employee relations, good location and transportation facilities, utilities and possibly the most important, high quality of life.

Convention Facilities

The City of Grand Rapids and the County have jointly created the Grand Rapids-Kent County Convention/Arena Authority (CAA). The function of this independent authority is to own and operate the DeVos Place Convention Center and the Van Andel Arena. The Van Andel Arena was completed in 1996, has a capacity of 12,000 and is used for professional hockey games, concerts, family shows and other entertainment events. The DeVos Place Convention Center encompasses one million square feet of total gross floor area including a 40,000 square foot ballroom that is used for conventions and expos and a performing theater that hosts cultural entertainment events. DeVos Place is part of a vibrant downtown entertainment district featuring over 50 dining establishments, nightclubs, and museums, all within walking distance. Recently, the Kent County Board approved financial support for a new downtown amphitheater which will also be managed by the CAA.

Regional Government Coordination

The Grand Valley Metropolitan Council is a Council of Governments dedicated to advancing the current and future well-being of our metropolitan area by bringing together public and private sectors to cooperatively advocate, plan for, and coordinate the provision of services and investments which have environmental, economic and social impact. It is understood that the well-being of the metropolitan community relies on good government and springs from a shared vision that encompasses many elements, including, but not limited to, the following: preparing now for the challenges of the future; planning for orderly growth and development; preserving and enhancing the natural, social, and physical environments; promoting economic vitality and employment opportunities; equitably sharing responsibility for community needs; recognizing the strengths and benefits of diversity; promoting quality lifelong educational opportunities; promoting quality cultural and recreational institutions and facilities; effectively utilizing and enhancing existing infrastructure; eliminating unnecessary duplication of services; and promoting a high quality of life now and for future generations.

Medical Services

Clinical care is a top priority in West Michigan with one of the nation's top-ranked medical centers of excellence. With three fast-growing major hospitals and hundreds of physicians in every specialty imaginable, employers and employees alike can count on accessible, high-quality patient care and wellness programs. The public and nonprofit hospitals in the County have approximately 2,200 licensed beds.

In 2000, the Van Andel Institute (VAI) opened, with the stated mission ". . . to become one of the world's preeminent private medical research institutions within the next decade" which has become a reality. The Van Andel Institute has three component parts: The Van Andel Research Institute (VARI), the Van Andel Education Institute (VAEI) and the Van Andel Institute (VAI). The

VARI is an independent medical research organization dedicated to preserving, enhancing and expanding the frontiers of medical science. The VAEI is an independent education institute whose mission is to conduct the Van Andel Educational Technology School, and to achieve excellence by embracing and strengthening the fundamental issues of education. The research being conducted at the VARI is has served as a growth pole, anchoring and propelling growth of a newly developing bioscience industry cluster. This has and will continue to draw outside business and related sectors into the region to take advantage of economic opportunities created by the Institute. VARI has constructed a 240,000 square foot eight-story building expansion that opened in December 2009. This expansion nearly triples the Institute's laboratory space, allowing for growth of current laboratories and expanded research into neurological diseases. The VAI supports the other two organizations.

Michigan State University Medical School constructed a \$90 million, 180,000 square foot medical school which houses the MSU college of Human Medicine. In 2012, MSU also purchased the former Grand Rapids Press headquarters along with five parking properties for use as research space and additional parking. This new facility is in close proximity to the MSU College of Human Medicine medical facility.

Employment

Major industries that are located within the boundaries of Kent County, or in close proximity, include manufacturers of office equipment and furniture, heating controls, automotive parts, financial institutions, education, health care, retail food/merchandise and leisure and hospitality. This diversified employment base adds to the strength of the local economy. Since 2005 the unemployment rate in Kent County has ranged from 2.1% to 21.3%, as a result of the COVID-19 pandemic, in April 2020. The unemployment rate as of September 2023, for Kent County, is 3.4% and is expected to remain stable.

Long-Term Financial Planning/Financial Policies

Budgeting and Forecasting

As stated earlier, the budget serves as the foundation for the County's financial planning and control. As part of the budget process, management prepares an annual budget for the General Fund. The Kent County metro area maintains an optimistic economic outlook with continued growth expected in the Commercial, Industrial and Residential sectors. Based on the current financial forecast, the County will be able to continue current service levels without raising its tax rate while retaining a projected fund balance of \$108.3 million at September 30, 2024, supported by an increase in property tax values and generated tax revenues.

Establishment and Use of General Fund Fund Balance

It is the Board of Commissioner's strategy that the County shall maintain adequate General Fund equity, to provide for contingent liabilities not covered by the County's insurance programs, provide for cash flow needs resulting from a late fiscal year tax levy and to insulate the County from any other swift unforeseen events. As part of that strategy, the County's Fund Balance

policy outlines the protocols and restrictions regarding the maintenance and utilization of fund balance.

The County maintains non-spendable General Fund fund balance equal to the balance of any long-term outstanding balances due from other County funds and component units as well as an amount equal to the value of its inventory balances and prepaid expenses.

The County commits annually a portion of fund balance, equal to 10% of the subsequent year's General Fund and subsidized governmental fund budgets, for budget stabilization. In addition, the County also maintains a minimum fund balance equal to at least 40% of the subsequent year's adopted General Fund budgeted expenditures and transfers out. Both of these elements work to ensure the continued operation of County programs and service levels in the event cash flow shortfalls or a large and unanticipated one-time General Fund expenditure requirement.

Capital Improvement Program

The County established the Capital Improvement Projects Fund to account for the acquisition or construction of major capital items not otherwise provided for in enterprise or trust funds. The Capital Improvement Program (CIP) consists mainly of one-time or non-recurring capital expenditures. The CIP is a primary tool for evaluating the physical improvement, tangible personal property or real property improvements for the County. The CIP outlines the schedule of County needs over a five-year period and contains funding recommendations on an annual basis. The County has annually deposited to this fund a not-less-than sum of monies equivalent to the revenues to be generated from 0.2 mills of the general property tax levy. For 2023, an additional \$7.4 million was appropriated to the County's Strategic Capital project in the CIP Fund intended for future use to fund major capital projects with limited debt exposure.

Tax Abatements and Tax Increment Financing

The local units in the County have established goals, objectives and procedures to provide the opportunity for industrial and commercial development and expansion. Since 1974, local units in the County have approved a number of applications for local property tax relief for industrial firms. The SEV of properties have been granted tax abatement under Act 198 and Act 146. These abatements are designed to provide a stimulus in economic growth and neighborhood revitalization by renovating certain blighted, environmentally contaminated or functionally obsolete commercial property or commercial housing property.

None of the other fiscal policies had a significant impact on the current period financial statements.

Future Financing

In May of 2024, the County intends to issue Private Placement tax notes in the Delinquent Tax Revolving enterprise fund. The County Board is also considering issuing a \$60 million-dollar general obligation limited tax note to build a new county administrative facility on the Fuller complex. The Gerald R Ford International Airport is intending on issuing approximately \$96

million of airport revenue bonds (backed by the full faith and credit of the County) in April 2024. This bond issue is the second tranche of a total of \$300 million authorized by the Board of Commissioners and will be used for baggage handling and terminal improvements.

Major Initiatives

Given the continued pressure for providing more services despite finite resources, Kent County's focus has been on long-term sustainability. This includes the long-term financial stability of Kent County along with supporting our local governmental partners and taking a leadership role with respect to innovative strategies that yield a more cost-effective and efficient delivery of services.

Kent County's Strategic Plan serves as a roadmap that guides our professional staff in creating objectives for each of these goals to ensure the County is meeting its overall strategic priorities. The strategic plan is reflected in the policies adopted by the Board of Commissioners and embodied by the County's budget and department-level strategic initiatives. Progress toward the strategic plan outcomes are measured by tracking performance outcomes in each department and are reported on the County's website.

The County's strategic priorities are as follows:

- Economic Prosperity We will focus on sound fiscal management and policies to support the economic prosperity of the County as well as the West Michigan region.
- High Quality of Life We will foster a high quality of life that promotes safe and healthy communities, strategic growth, and world-class outdoor resources.
- Excellence in Service Delivery We will adopt innovative ways to deliver services that maximize efficiency and provide an exceptional experience to those we serve.
- Inclusive Participation We will provide innovative and inclusive ways to engage residents and involve them in County government.
- Effective Communications We will be transparent and clear in the communications and decisions of the County. The County continues to work towards generating additional revenues along with shifting and reducing costs and utilizing technology to contain costs.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County of Kent for its Annual Comprehensive Financial Report (ACFR) for the fiscal year ended December 31, 2022. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized ACFR. This report must satisfy both generally accepted accounting principles (GAAP) and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated effort of the entire staff of the Fiscal Services Department. We express our appreciation to all employees of the County who assisted and contributed to its preparation. We also express our gratitude to the Board of Commissioners for their interest and support in planning and conducting the financial operations and management of the County of Kent in a responsible and progressive manner.

Respectfully submitted,

ala G. Vanhoberg

INDEPENDENT AUDITORS' REPORT

March 19, 2024

Honorable Members of the **Board of Commissioners** of the County of Kent Grand Rapids, Michigan

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Kent, Michigan (the "County"), as of September 30, 2023 and for the 9month period then ended, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of the other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Kent, Michigan, as of September 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the period then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the following entities, which represent the indicated percentages of total aggregate discretely presented component units:

	Percent of Assets and Deferred Outflows Of Resources	Percent of Revenues	Percent of Net Position
Kent County Road Commission Gerald R. Ford International Airport Authority	38.3%	52.4%	51.1%
	58.3%	43.5%	46.3%

Those statements were audited by other auditors whose reports thereon were furnished to us, and our opinions, insofar as they relate to the amounts included for the above entities, are based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Independent Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- · exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- · evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- · conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the budgetary comparisons for the General Fund and the major special revenue fund, and the schedules for the pension and other postemployment benefit plans, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued, under separate cover, our report dated March 19, 2024, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis

As management of the County of Kent, Michigan (the "County"), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the 9-month fiscal period ended September 30, 2023. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

Effective beginning with the September 30, 2023 fiscal year end, the County changed its fiscal year end from December 31 to September 30. The financial statements for the period ended September 30, 2023 are for the 9 months of financial activity from January 1, 2023 to September 30, 2023.

Financial Highlights

- The assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal period by \$625,805 (net position). Of this amount, \$161,861 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net position increased by \$101,853, comprised of a \$92,852 increase in governmental activities and an increase of \$9,001 in business-type activities.
- · As of the close of the current fiscal period, the County's governmental funds reported combined ending fund balances of \$225,621, an increase of \$40,882 from the prior period. Approximately 31.2% of this total amount or \$70,489 is unassigned fund balance.
- At the end of the current fiscal period, the unassigned fund balance for the General Fund was \$70,489 or 57.3% of total General Fund expenditures.
- Total government-wide liabilities (including the net pension and OPEB liabilities) decreased by approximately \$43,335 or (8.4%) during the current fiscal period. Liabilities for governmental activities decreased by approximately \$49,986 and liabilities for business-type activities increased by \$6,651. This overall decrease in liabilities is primarily due to principal payments on bonds, notes, and other long-term liabilities of approximately \$26,150 and a decrease in unearned revenue from the American Rescue Plan Act (ARPA) funding of \$31,484.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the County's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference being net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Management's Discussion and Analysis

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, health and welfare, culture and recreation, judicial, community and economic development, and public works. The business-type activities of the County include the Department of Public Works and delinquent tax collection and administration.

The government-wide financial statements include not only the County itself (known as the primary government), but also a legally separate Road Commission, legally separate Drainage Districts, a legally separate Housing Commission, and the legally separate Gerald R. Ford International Airport Authority for which the County is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains twenty-nine individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General, Coronavirus, and the Public Improvement funds, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The County adopts an annual appropriated budget for its General Fund and special revenue funds. Budgetary comparison schedules have been provided for these funds to demonstrate compliance with this budget.

Proprietary Funds. The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for the Delinquent Tax Revolving Fund and Department of Public Works ("DPW"). Internal service funds are used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its risk management, employee benefit programs and vehicle and office equipment. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Management's Discussion and Analysis

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Delinquent Tax Revolving Fund and the Department of Public Works, each considered to be a major fund. The County's internal service funds are presented in the proprietary fund financial statements in the Governmental Activities - Internal Service Funds column.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain information concerning the County's progress in funding its obligation to provide pension and other postemployment benefits to its employees and budget comparisons for the General Fund and the major special revenue fund.

Government-wide Financial Analysis

As previously stated, net position may serve over time as a useful indicator of a government's financial position. In the case of the County, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$625,805 at the close of the most recent fiscal period.

Total net position	\$	489,000	\$	396,148	\$	136,805	\$	127,804	\$	625,805	\$	523,952

Management's Discussion and Analysis

A substantial portion of the County's net position, \$339,396 (54.2%), reflects its investment in capital assets (e.g., land, buildings, machinery and equipment), less any related outstanding debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net position of \$124,548 (19.9%) represents resources that are subject to external restrictions on how they may be used. The County may use the remaining balance of unrestricted net position of \$161,861 (25.9%) to meet its ongoing obligations to citizens and creditors.

At the end of the current fiscal period, the County is able to report positive balances in all three categories of net position, both for the government as a whole, and for its separate governmental and business-type activities.

Management's Discussion and Analysis

The County's net position increased by \$101,853 during the current fiscal period. The majority of this increase is related to decreased expenses related to the net pension and OPEB liabilities. For the period ended September 30, 2023, the County recognized no pension and OPEB expense, as the measurement date of December 31, 2022 is the same as the prior reporting period. As a result of the change to the County's fiscal year end of September 30, 2023, all contributions to the plan during the period are included with deferred outflows of resources for contributions subsequent to the measurement date.

Governmental Activities. Governmental activities increased the County's net position by \$92,852. Key elements of this increase include the following:

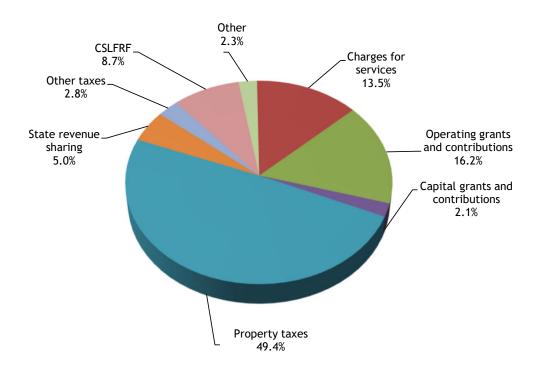

- · Charges for services decreased by \$22,372 due to only 9 months of revenue being record in the current fiscal period and housing market slowing down resulting in less recording fees and transfer tax.
- · Operating grants decreased by \$27,081 due to only 9 months of revenue being record in the current fiscal period and reclass of revenue from Coronavirus State and Local Fiscal Recovery funds.
- · Capital grants increased by \$6,154 due to donation of land to the County for parks and increased State grants for park land acquisitions.
- · Current period property tax revenue increase of \$13,889 related to the increase in the value of taxable property.
- State revenue sharing decreased by \$4,780 primarily due to 3 quarters for State Revenue Sharing being recorded compared to 4 quarters.
- Other taxes decreased by \$2,436 due to decrease in monthly transient lodging revenue earned resulting from the year end change.
- · CSLFRF revenue increased by \$27,006 due to the use of the Coronavirus State and Local Fiscal Recovery funds.
- Other revenue increased by \$9,627 due to an increase in unrestricted investment earnings as a result of market conditions.
- · Overall expenses decreased by \$94,563 primarily due to a decrease in pension and OPEB expenses resulting from the year-end change as noted above.

Expenses and Program Revenues - Governmental Activities

Management's Discussion and Analysis

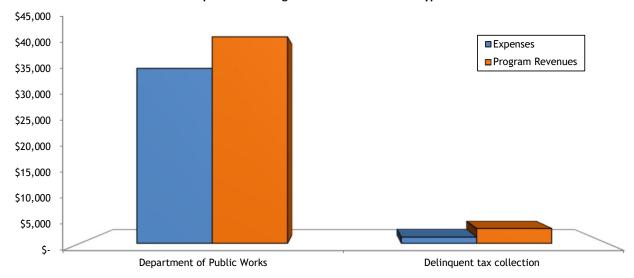

Revenues by Source - Governmental Activities

Business-type Activities. Business-type activities increased the County's net position by \$9,001. Key elements of this increase include the following:

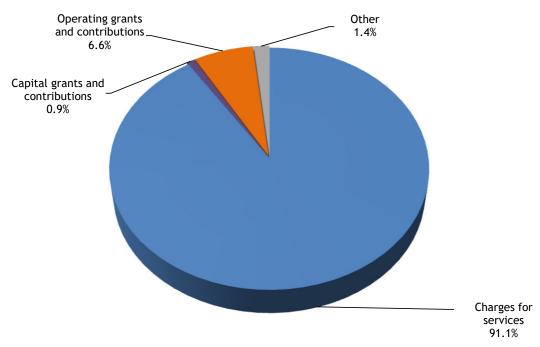

- · Charges for services revenue decreased by \$14,209 primarily related to the year-end change with only 9 months of revenues in the current fiscal period.
- Public works expenses decreased by \$13,380 primarily due to the year-end change with only 9 months of expenses in the current fiscal period and the decrease in pension and OPEB expenses as noted above.

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal period, the County's governmental funds reported combined ending fund balances of \$225,621, an increase of \$40,882 from the prior year. Of this amount, 31.2% (\$70,489) constitutes unassigned fund balance, which is available for spending at the government's discretion, however it is limited to the minimum fund balance requirements per the County's Fund Balance policy. The remainder of fund balance is reserved to indicate that it is not available for new spending because it is classified as one of the following: A) Nonspendable for 1) inventories and prepaids (\$1,377), or 2) long-term cash advances to the Drainage District (\$1,091); B) Restricted for use per external/third party mandates (\$107,708); C) is committed for economic stabilization (\$35,366); or D) has been assigned for other specific uses in the County's general operations (\$9,591).

The General Fund is the chief operating fund of the County. At the end of the current fiscal period, unassigned fund balance of the General Fund was \$70,489 while total fund balance amounted to \$108,267. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 57.3% of total General Fund expenditures, while total fund balance represents 88.0% of that same amount.

Management's Discussion and Analysis

The fund balance of the County's General Fund increased by \$21,357 during the current fiscal period. Key factors in this change are as follows:

- · Increasing property tax values resulting in an increase in current property tax revenues of \$8,944.
- · Intergovernmental revenues decreased by \$4,959 due to change in fiscal year end resulting in less State Shared Revenue offset by increase in State liquor tax.
- · Charges for services decreased by \$8,143 due to change in fiscal year-end and less real estate sales.
- · Investment earning increased \$7,290 due to investment gains.
- · Contributions and reimbursements decreased by \$5,051 due to less reimbursements from ARPA funding.
- · General government expenditures decreased \$6,059 due to change in fiscal year end resulting in decrease in salaries and utility expenditures.
- · Public safety expenditures decreased \$13,554 due to change in fiscal year end resulting in decrease in salaries.
- · Judicial expenditures decreased \$5,240 due to change in fiscal year end resulting in decrease in salaries.
- · Transfers decreased \$6,175 due to decreased transfers from the corrections and detention department.

The Coronavirus Fund accounts for the funding received to mitigate and respond to the effects of the public health emergency. Revenues are provided through Federal and State grants. Ending fund balance was \$3,531 and is attributable to interest earned on pooled cash and FEMA grant.

The Public Improvement Fund accounts for revenue set aside for public improvements. The ending fund balance decreased by \$1,212, and is primarily attributable to increase expenditures for capital improvement projects.

Proprietary Funds. The County's proprietary fund financial statements provide the same type of information found in the government-wide financial statements, but in more detail.

General Fund Budgetary Highlights

During the period, significant changes between original and final amended budget are as follows:

- The budget for intergovernmental revenues was increased by \$1,005, related to State liquor tax exceeding State projection.
- The budget for transfers out was increased by \$8,732, primarily related to a transfer for the establishment of the Insurance Authority internal service fund.

The General Fund budgeted for an increase in fund balance of \$8,033 and the actual change in fund balance was an increase of \$21,357. Significant budgetary variances are as follows:

- \$3,488 of tax revenue were more than budgeted primarily due to an increase taxable value.
- \$1,351 of intergovernmental revenue were more than budgeted primarily due to State grant court equity higher that expected due to timing of receipts.
- \$4,290 of investment earnings were more than budgeted primarily due to investment market returns.
- · General government expenditures were under budget by \$1,665 primarily due to software being budgeted based on 12 months, but the costs were annual and paid in prior year. Salaries were less due to new employees budgeted for full year, but not hired at beginning of year.
- \$1,296 of judicial expenditures were less than budgeted primarily due to attorney fees moving to Indigent Defense grant.
- Transfers in were under budget by \$2,006 due to reduced transfers from the Corrections and Detention special revenue fund.
- · Transfers out were less than budgeted by \$1,929 due to decrease in transfers required by the Health Department and Child Care special revenue funds, more expenditures were covered by grant funding.

Management's Discussion and Analysis

Capital Asset and Debt Administration

Capital Assets. The County's capital assets for its governmental and business-type activities as of September 30, 2023 amounted to \$412,615 (net of accumulated depreciation/amortization). This investment in capital assets includes land, buildings, land improvements, machinery and equipment, park facilities, property development rights, motor vehicles, drains, landfill cells, and lease and subscription assets. The net increase in the County's investment in capital assets for the current fiscal period was \$35,773 (a \$14,782 increase for governmental activities and a \$20,991 increase for business-type activities).

Major capital asset events during the current fiscal period included the following:

- \$4,094 increase in land primarily related to Silver Lake property (\$1,350), Townsend Park land (\$1,725), and Two Rivers land (\$875).
- \$21,187 increase in building and improvements primarily related to the North County Campus (\$13,054), Fleet Facility (\$3,906), Parks Office & Visitors Center (\$2,643), and new Pygmy Hippo habitat (\$1,427).
- \$16,117 increase in construction in progress in business-type activities primarily related to NKT building (\$7,972), refuse crane (\$5,822), and system and data acquisition (\$2,023).

Additional information on the County's capital assets can be found in Note 7 of this report.

Long-term Debt. At the end of the current fiscal period, the County had total installment debt outstanding with a face amount of \$106,186.

	Installment Debt												
	Governmental Activities					Business-ty	ctivities	Total					
	September 30,), December 31,		September 30,		December 31,		September 30,		December 31,		
		2023		2022		2023		2022		2023		2022

Total	\$	88,441	\$	99,211	\$	17,745	\$	22,115	\$	106,186	\$	121,326	

Management's Discussion and Analysis

The County's total installment debt decreased by \$15,140 (12.5%) during the current fiscal period. The net decrease was mainly attributable to debt payments throughout the fiscal period.

The County maintains an "AAA" rating from Standard & Poor's and "Aaa" rating from Moody's for its general obligation debt.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10% of its total state equalized valuation. The current debt limitation for the County is \$4,197,892 which is significantly higher than the County's outstanding general obligation debt.

Additional information on the County's long-term debt can be found in Note 8 of this report.

Economic Factors and Next Year's Budget and Rates

- The average annual unemployment rate for the County for 2023 was 3.4%, which decreased 0.1% from 2022, related to employees returning to the workforce following the COVID-19 pandemic. This is significantly below the State average annual unemployment rate of 3.9% for 2023.
- · Inflationary trends in the region compare favorably to national indices.

The County considered these factors in preparing its budget for the 2024 fiscal year.

At September 30, 2023, unassigned fund balance in the General Fund was \$70,489. The County was able to adopt a balanced budget for the 2024 fiscal year without appropriating additional spending, or the need to raise taxes or charges above the current recommended levels during the 2024 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the County of Kent's finances. Questions concerning any of the information provided in this report, or requests for additional financial information, may be addressed to the Fiscal Services Director, County Administration Building, 300 Monroe Avenue N.W., Grand Rapids, Michigan 49503-2221.

Reconciliation

Fund Balances for Governmental Funds to Net Position of Governmental Activities September 30, 2023

Fund balances - total governmental funds

\$ 225,621,495

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources, and therefore are not reported in the fund statements.

Capital assets not being depreciated/amortized	102,865,223
Capital assets being depreciated/amortized, net	227,634,888

The focus of governmental funds is on short-term financing. Accordingly, some assets will not be available to pay for current-period expenditures. Those assets (such as certain receivables) are offset by deferred inflows of resources in the governmental funds, and thus are not included in fund balance.

Deferred inflows for installment sales agreement receivable	18,195,826
Deferred inflows for opioid settlement	6,835,359
Deferred inflows for loans receivable	1,498,928
Deferred inflows for property taxes receivable	4,146,247

Internal service funds are used by management to charge the costs of certain activities, such as insurance and other centralized costs, to individual funds. The assets and liabilities of certain internal service funds are included in governmental activities.

Net position of governmental activities accounted for in internal service funds:

Total internal service fund net position	22,943,424
Internal service fund net position accounted for in business-type activities	229,759

Certain liabilities, such as bonds payable, and deferred outflows of resources are not due and payable in the current period or do not represent current financial resources, and therefore are not reported in the funds.

Bonds, notes and other long-term liabilities	(90,329,146)
Deferred charge on advance bond refundings, net	544,729
Bond premiums/discounts, net	(13,022,671)
Pollution remediation liability	(24,529)
Compensated absences	(8,373,830)
Accrued interest on bonds, notes and other long-term liabilities	(1,240,658)

Certain pension and other postemployment benefit-related amounts, such as the net pension liability and other postemployment benefit liability and deferred amounts are not due and payable in the current period or do not represent current financial resources and therefore are not reported in the funds.

Net pension liability	(126,018,670)
Deferred outflows related to the net pension liability	131,236,191
Deferred inflows related to the net pension liability	(1,418,375)
Net OPEB liability	(21,563,335)
Deferred outflows related to the net OPEB liability	15,442,126
Deferred inflows related to the net OPEB liability	(6,202,669)

Reconciliation

Net Changes in Fund Balances of Governmental Funds to Change in Net Position of Governmental Activities For the Period Ended September 30, 2023

Net change in fund balances - total governmental funds

\$ 40,882,277

Amounts reported for governmental activities in the statement of activities are different because:

is allocated over their estimated useful lives and reported as depreciation/amortization expense.	
Capital assets purchased/constructed	21,705,668
Donated capital assets	4,968,063
Depreciation/amortization expense	(8,988,725)
Proceeds from sale of capital assets	(691,606)
Loss on sale of capital assets	(654,761)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, but rather are deferred to the following fiscal period.

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets

Net change in deferred inflows for installment sales agreement	(2,021,553)
Net change in deferred inflows for opioid settlement	(1,143,134)
Net change in deferred inflows for loans receivable	(31,963)
Net change in deferred inflows for property taxes receivable	2 069 874

Bond proceeds provide current financial resources to governmental funds in the period issued, but issuing bonds increases bonds, notes and other long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces bonds, notes and other long-term liabilities in the statement of net position.

Principal payments on bonds, notes and other long-term liabilities	10,416,927
Issuance of long-term liabilities	(300,199)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Change in accrued interest payable on bonds, notes and other long-term liabilities	(654,087)
Amortization of bond premiums/discounts	1,288,818
Amortization of deferred charge on advance bond refundings	(80,641)
Change in the accrual for compensated absences	1,825,473
Change in the net pension liability and related deferred amounts	8,732,867
Change in the net other postemployment benefit liability and related deferred amounts	5,254,647

An internal service fund is used by management to charge the costs of certain services to individual governmental funds. The net revenue (expense) attributable to those funds is reported with governmental activities.

Net operating loss of the internal service funds	(967,155)
Operating loss of the internal service funds allocated to business-type activities	179,763
Interest earnings from internal service funds	838,097
Gain on sale of capital assets from internal service funds	3,751
Operating transfers accounted for in the internal service funds	10,220,000

Re

Reconciliation

Net Position of Enterprise Funds to Net Position of Business-type Activities September 30, 2023

Net position - total enterprise funds

\$ 137,034,588

Amounts reported for business-type activities in the statement of net position are different because:

Internal service funds are used by management to charge the costs of certain activities, such as insurance and other centralized costs, to individual funds. A portion of the net position of the internal service funds is allocated to the enterprise funds and reported in the statement of net position.

Net position of business-type activities accounted for in governmental-type internal service funds

(229,759)

NOTES TO FINANCIAL STATEMENTS

Notes to Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The *County of Kent, Michigan* (the "County" or the "government") was organized as a county by the territorial legislature on March 24, 1836. A 19-member Board of Commissioners governs the County. The County provides the following services: public safety, sanitation, health and social services, judicial, cultural and recreation, public improvements and general governmental administration.

The financial statements of the County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting policies are described below.

Effective beginning with the September 30, 2023 fiscal year end, the County changed its fiscal year end from December 31 to September 30. The financial statements for the period ended September 30, 2023 are for the 9 months of financial activity from January 1, 2023 to September 30, 2023.

Reporting Entity

As required by generally accepted accounting principles, these financial statements present the government and its component units, entities for which the County is financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations and as such, data from these units are combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the combined financial statements to emphasize that they are legally separate from the government.

Blended Component Units

Kent County Building Authority – The Kent County Building Authority is governed by a board which is appointed by the County Board of Commissioners. Its sole purpose is to finance and construct the County's public buildings. It is reported in the Debt Service and Capital Projects Funds and has a September 30 year end. A separate report is not prepared for the Building Authority.

Discretely Presented Component Units

Kent County Road Commission ("Road Commission") – The Road Commission is responsible for the maintenance and construction of the County road system. The County appoints the members of the Road Commission Board and is a direct beneficiary of the services provided. The Road Commission may not issue debt or levy a tax without the approval of the County Board of Commissioners. The component unit is audited individually and complete financial statements can be obtained from the Road Commission's administrative office. The Road Commission's fiscal year end is September 30.

Notes to Financial Statements

Drainage Districts – The Drainage Districts consist of over 500 individual districts created for alleviating drainage problems and is under the control of the County Drain Commissioner. Each drainage district accounts for the construction, maintenance, and financing costs associated with its drain program. Each individual district is a separate legal entity with power to assess the benefiting communities, including the County and the State of Michigan for road drainage. The County is a direct beneficiary of the service provided and its employees run the day-to-day operations. In addition, the County often pledges its full faith and credit for the long-term debt of the drainage districts. Based on the recommendations of the Michigan Department of Treasury, the County has determined that it would be misleading to exclude this entity from the County reporting entity.

The financial activity of the Drainage Districts for the period ended September 30, 2023 is reported discretely as a governmental fund type. There are no separately issued financial statements of this component unit, although financial information for the specific drainage districts may be obtained from the Kent County Drain Commissioner.

Kent County Housing Commission ("Housing Commission") – The Housing Commission is a policy-making body that oversees the distribution of rental assistance to low-income residents of the County. The County is a direct beneficiary of the services provided and is financially responsible for its activities. Because members of the Commission are appointed by the Chairperson of the Kent County Board of Commissioners, the County exercises effective control over its activities. In addition, County employees run the day-to-day operations. The Housing Commission does not issue separate financial statements. The Housing Commission's fiscal year end is September 30.

Gerald R. Ford International Airport Authority ("Airport") — The Airport accounts for the operation and maintenance of the Gerald R. Ford International Airport. Financing is provided primarily by user charges and capital contributions. The Airport was established as an Authority on September 2, 2015 and began operations on July 1, 2016 resulting in a transfer of operations from the Department of Aeronautics enterprise fund. The Airport is governed by a seven-member Board whose members are appointed by the County Board of Commissioners. The County has pledged its limited tax obligation against the Airport's outstanding revenue bonds. In order to continue leveraging the County's AAA credit risk rating (by having the County's limited tax guarantee), the Board of Commissioners must approve the issuance of any additional bonds. Because all of the members of the Airport board are appointed by the Kent County Board of Commissioners (demonstrating that the County exercises effective control over Airport activities) and because the Airport is reliant on the County for its limited tax pledge on bonds payable, the Airport is reported as a discretely presented component unit. The component unit is audited individually and complete financial statements can be obtained from the Airport's administrative office. The Airport's fiscal year end is December 31.

Fiduciary Component Units

The **Employees' Retirement System** ("System") is a single-employer defined benefit contributory retirement plan which provides pension, death and disability benefits covering certain full-time employees of Kent County. The System is administered through a qualified trust. The System is included as a fiduciary component unit of the County because (1) the System is a legally separate entity; (2) the County Board of Commissioners appoints a voting majority of the Pension Board; and (3) the County makes contributions to the System on behalf of its participants. Employee contribution requirements were established and may be amended subject to collective bargaining agreements and approval by the Kent County Board of Commissioners. The System's fiscal year end is December 31.

The **Kent County Voluntary Employees' Beneficiary Association** ("VEBA") is a single-employer defined benefit postemployment healthcare plan established and administered by Kent County to provide medical and healthcare benefits for retirees and their beneficiaries. Eligible participants include any retirees who receive pension benefits under the County's pension plan. The VEBA is included as a fiduciary component unit of the County because (1) the VEBA is a legally separate entity; (2) the County Board of Commissioners appoints a voting majority of the VEBA Board; and (3) the County makes contributions to the VEBA on behalf of its participants. The VEBA's fiscal year end is December 31.

Other Related Entities

Kent County Parks Foundation ("Foundation") – The Kent County Parks Foundation is a 501(c)(3) not-for-profit organization that was created for the purpose of acquiring, developing, constructing and maintaining real estate and land improvements for public park and recreation purposes. The Chair of the County Board of Commissioners (or designee) serves on the Foundation's Board of Directors. The County has determined that the Foundation does not meet the criteria for reporting as a component unit of the County and, accordingly, it has not been included in the accompanying financial statements.

Joint Ventures

The County participates in the following activities, which are considered to be joint ventures in relation to the County due to the formation of an organization by contractual agreement between two or more participants that maintain joint control, financial interest, and fiscal responsibility.

Notes to Financial Statements

City of Grand Rapids and County of Kent Joint City/County Building Authority – The County entered into an agreement with the City of Grand Rapids to acquire, construct, furnish, equip, operate and maintain buildings for any legitimate public purpose of the governmental units. This Authority is not included in the County's financial statements because, upon retirement of the related financing, title to the facilities will be conveyed to the City of Grand Rapids or the Convention/Arena Authority.

The Joint Building Authority has completed projects which include the construction of an exhibition hall, the remodeling of the Civic Auditorium, site development of the City and County administrative buildings, the construction, furnishing and equipping of a public museum and the construction of the convention center.

Complete financial statements of the City of Grand Rapids and County of Kent Joint City/County Building Authority are available from the City of Grand Rapids administrative offices. Summary financial information is as follows:

Statement of Net Position	June 30, 2023

Net position, beginning of year	78,392,474		
Net position, end of year	\$ 78,865,159		

Notes to Financial Statements

As of June 30, 2023, the Joint Building Authority had capital appreciation bonds payable outstanding in the amount of \$68,661,412 including accrued interest of \$46,735,763 and bond premium of \$586,324. These bonds are retired through payments made by the City and County and through payments from the County of Kent lodging excise tax. The bonds are secured by a limited full faith and credit pledge of the County. The interest rates on these bonds range from 3.0%-5.59%, with final maturities due in 2032.

The annual principal and interest requirements are as follows:

Year Ended June 30,		Principal	Interest		Total	
2024	_		_		_	
2024	\$	3,101,469	\$	5,790,931	\$	8,892,400

Total	\$	21,339,325	\$	66,028,076	\$	87,367,401

Convention/Arena Authority – The County entered into an agreement with the City of Grand Rapids to establish an authority pursuant to the Convention Facility Authority Act. The Convention/Arena Authority is a separate legal entity established for the purpose of acquiring, constructing and operating convention facilities. The operating agreement provides that any facility operating deficits will be covered first by the net income of other Convention/Arena Authority facilities, second by an operating reserve fund, and third by certain lodging excise tax revenues. Any remaining deficit will be shared equally by the County and the City of Grand Rapids.

Complete financial statements of the City of Grand Rapids and County of Kent Joint Convention and Arena Authority are available from the City of Grand Rapids administrative offices. Summary financial information is as follows:

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Notes to Financial Statements

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting,* as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement* focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 90 days of the end of the current fiscal period, except taxes and E-911 surcharge collections which must be collected within 60 days, health department revenue which must be collected within 120 days, and expenditure-driven grants which must be collected within one year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, intergovernmental revenue, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and as such have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Property tax chargebacks are recognized based on the date in which the MTT/BOR order is received.

The County reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all the financial resources of the general government, except those accounted for and reported in another fund.

The *Coronavirus Special Revenue Fund* accounts for the grant funding received as a result of the coronavirus pandemic. Revenues are provided through federal and state advances and reimbursements.

The Public Improvement Capital Projects Fund accounts for revenue set aside for public improvements.

The County reports the following major proprietary funds:

The *Delinquent Tax Revolving Enterprise Fund* accounts for the collection and administration of delinquent property taxes levied in prior years.

The *Department of Public Works Enterprise Fund* accounts for the construction and financing of solid waste disposal; operation and maintenance of solid waste disposal; and planning and implementation of County programs relative to solid waste reduction. Financing is provided primarily by user charges.

Notes to Financial Statements

Additionally, the County reports the following fund types:

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted, committed, or assigned to expenditure for specified purposes other than debt service or capital projects.

Capital Projects Funds are used to account for and report financial resources that are restricted for the expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Internal Service Funds account for the insurance activity of the County, which is provided to other departments and funds on a cost reimbursement basis, along with office equipment and vehicle pools for the purchase and maintenance of County office equipment and vehicles.

Pension and Other Postemployment Benefits Trust Funds account for the activities of the Employees' Retirement Plan and the Voluntary Employees' Beneficiary Association (VEBA) trust, which accumulate resources for retirement and other postemployment benefit payments to qualified employees.

The Investment Trust Fund accounts for funds held in trust by the County for local units of government.

The *Custodial Fund* accounts for assets held by the County in a custodial capacity for other governments and entities. Primarily this includes undistributed collections and withholdings such as state education taxes, current property taxes, state jail booking fees, state real estate transfer taxes, and library penal fines.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned. The General Fund provides certain central services to other funds of the County which are presented as program expenses in the funds receiving services. The related General Fund revenue has been netted against program expense in the government-wide statement of activities.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the government's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation/amortization on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Notes to Financial Statements

Restricted assets represent amounts subject to restrictions beyond the government's control. The restrictions may be externally imposed or imposed by law. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Equity

Deposits and Investments

The government's cash and cash equivalents include amounts in demand deposit accounts, certificates of deposit and short term investments with original maturities of three months or less from the date of acquisition. Investments, exclusive of certificates of deposit, are stated at fair value. Certificates of deposit are carried at cost plus accrued interest, since the original maturity dates are less than one year or the certificates are non-participating (i.e., there is no available market for trade prior to maturity).

State statutes and County policy authorize the County to invest in:

- Bonds, securities, other obligations and repurchase agreements of the United States, or an agency or instrumentality of the United States.
- Certificates of deposit, savings accounts, deposit accounts or depository receipts of a qualified financial institution.
- Commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and that matures not more than 270 days after the date of purchase.
- Bankers' acceptances of United States banks.
- Obligations of the State of Michigan and its political subdivisions, that, at the time of purchase are rated as investment grade by at least one standard rating service.
- Mutual funds registered under the Investment Company Act of 1940 with the authority to purchase only investment vehicles that are legal for direct investment by a public corporation.
- External investment pools as authorized by Public Act 20 as amended through December 31, 1997.

The County pools cash resources of various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing securities and disclosed as part of the County's investments.

Notes to Financial Statements

Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Property taxes receivable in governmental funds represent amounts due from taxpayers on the July 1 and December 1 tax levies in the General Fund and other governmental funds, respectively. Any amounts outstanding on the July 1 levy on March 1 (excluding personal property taxes) are purchased by the Delinquent Tax Revolving enterprise fund through the settlement process.

Property taxes receivable in the Delinquent Tax Revolving enterprise fund represent unpaid balances from the previous years' levies for the County itself as well as other local taxing authorities in the County's geographical region. The County is responsible for pursuing and administering collection of these balances and coordinating the forfeiture and foreclosure activities for the related parcels. This process takes place over a 3-year period. Interest at 1% per month (increased to 1.5% after 12 months, retroactive to the date of delinquency) and administrative fees at 4% are accrued in accordance with State statute. No amounts have been included in an allowance for uncollectible balances, as the structure of the Delinquent Tax Revolving enterprise fund has been designed to make the fund whole either through the eventual auction of the foreclosed parcels or through chargebacks to the local taxing authorities initially levying the taxes.

All trade receivables are shown net of an allowance for uncollectibles, as applicable.

Amounts due from other governments include amounts due from grantors for specific programs and capital projects. Program grants and capital grants for capital assets are recorded as receivables and revenues at the time reimbursable project costs are incurred. Amounts received in advance of project costs being incurred are reported as unearned revenue.

Loans receivable consists of Community Development Block Grant funds used to finance home improvements for area residents, which must be repaid by the homeowner upon sale or foreclosure. The County has an enforceable lien on the related property.

Special assessments receivable, which are based on total estimated construction and maintenance costs of each drain project, reflect amounts due from benefiting parties including local units of government and property owners. No allowance for uncollectibles is recorded because the special assessments represent a lien on the respective properties.

The installment sales agreement receivable consist of amounts due from local units of government to meet debt service requirements on bonds. Amounts are levied semi-annually to correspond with the payment dates of the related bonds.

Notes to Financial Statements

Restricted Assets

Assets which are restricted for specified uses by bond debt requirements, grant provisions or other external requirements are classified as restricted assets.

Restricted assets in the Coronavirus special revenue fund consist of unspent State and Local Fiscal Recovery Funds (CSLFRF) received.

Restricted assets in the Airport Authority component unit relate to bond proceeds restricted for airport construction, passenger facility charges restricted for capital improvements, and customer facility charges restricted for rental car-related capital improvements.

The Department of Public Works enterprise fund's restricted assets represent a Perpetual Care Fund for the South Kent Landfill. This balance is required to be held in trust by the Michigan Department of Environment, Great Lakes and Energy ("EGLE") to be used for landfill closure and post-closure monitoring and maintenance.

The Delinquent Tax Revolving enterprise fund restricted assets are held for the debt retirement of the 2022 and 2023 General Obligation Limited Tax Notes.

Leases

Lessee. The County is a lessee for noncancellable leases of land, building and improvements, and motor vehicles. The County recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide and proprietary fund financial statements. The County recognizes lease liabilities with an initial, individual value of \$100,000 or more.

At the commencement of a lease, the County initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the County determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments. The County uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the County generally uses its estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price (if applicable) that the County is reasonably certain to exercise.

The County monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Notes to Financial Statements

Lessor. The County is a lessor for noncancellable leases of buildings and improvements and machinery and equipment. The County recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

At the commencement of a lease, the County initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for prepaid lease payments received at lease inception. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the County determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts. The County uses its estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The County monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease receivable if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Subscription-Based Information Technology Arrangements (SBITA)

The County has noncancellable subscription-based information technology arrangements (SBITA). The County recognizes a SBITA liability and an intangible right-to-use SBITA asset (subscription asset) in the government-wide financial statements. The County recognizes SBITA liabilities with an initial, individual value of \$100,000 or more.

At the commencement of a SBITA, the County initially measures the SBITA liability at the present value of payments expected to be made during the SBITA term. Subsequently, the SBITA liability is reduced by the principal portion of SBITA payments made. The subscription asset is initially measured as the initial amount of the SBITA liability, adjusted for SBITA payments made at or before the SBITA commencement date, plus certain initial direct costs. Subsequently, the subscription asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to SBITAs include how the County determines (1) the discount rate it uses to discount the expected payments to present value, (2) SBITA term, and (3) SBITA payments. The County uses the interest rate charged by the vendor as the discount rate. When the interest rate charged by the vendor is not provided, the County generally uses its estimated incremental borrowing rate as the discount rate for SBITAs. The SBITA term includes the noncancellable period of the SBITA. SBITA payments included in the measurement of the SBITA liability are composed of fixed payments and purchase option price (if applicable) that the County is reasonably certain to exercise.

Notes to Financial Statements

The County monitors changes in circumstances that would require a remeasurement of its SBITA and will remeasure the subscription asset and SBITA liability if certain changes occur that are expected to significantly affect the amount of the SBITA liability.

Other Assets

Inventories recorded in the General Fund, Health Fund, Drug Forfeiture Fund, Kent County Community Action Fund, and the Airport Authority are accounted for utilizing the consumption method and are valued at lower of cost (first-in, first-out) or market. The Road Commission utilizes the consumption method, valuing inventory at average cost.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaids are accounted for in governmental funds using the consumption method whereby expenditures are recognized over the benefitting period.

Capital Assets

Capital assets, which include property, buildings (which will include land, property, buildings and equipment) and equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items acquired or constructed since 1980), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets having a useful life in excess of three years and whose costs equal or exceed \$10,000 (\$300,000 for Drain infrastructure and \$50,000 for Airport Authority assets). Capital assets are stated at historical cost or estimated historical cost where actual cost information is not available. Donated capital assets are recorded at their acquisition value as of the donation date.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, infrastructure, buildings and equipment are depreciated using the straight-line method over the following estimated useful lives:

	Years
Land improvements	20-50
Infrastructure	8-40
Building and improvements	20-50
Waste-to-Energy facility	40
Machinery and equipment	3-25
Office equipment and furniture	3-10
Motor vehicles	3-5

Notes to Financial Statements

In addition to land and construction in progress, the amount presented as capital assets not being depreciated includes intangible assets consisting of land development rights acquired for the purpose of farmland and ranch preservation. Land development rights are deemed to have an indefinite useful life, and therefore are not being amortized.

The County reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset exceeds its fair value. If it is determined that an impairment loss has occurred the asset is written down to its net realizable value and a current charge to income is recognized.

Landfill costs are amortized as engineered sections of the landfill are utilized.

Road Commission – Discretely Presented Component Unit

Capital assets, which include land, property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$1,000 to \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost of purchase or construction. Donated capital assets are recorded at their acquisition value as of the donation date.

Depreciation on capital assets is computed using the Michigan Department of Transportation depreciation schedules for equipment and the straight-line method for infrastructure over the following estimated useful lives:

	Years
Buildings and improvements	25-50
Equipment	3-8
Roads	8-20
Other infrastructure	20-40

Airport Authority – Discretely Presented Component Unit

Capital assets include land improvements, buildings and improvements, equipment, systems, office equipment and furniture, and vehicles. Capital assets are defined by the Airport as assets with an initial individual cost of more than \$50,000 and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed, net of accumulated depreciation. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset life are not capitalized.

Notes to Financial Statements

Capital assets are depreciated using the straight-line method over the following useful lives:

	Years
Land improvements	20-30
Buildings and improvements	30-50
Equipment and systems	3-12
Office equipment and furniture	5-15
Vehicles	3-7

Deferred Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County reports deferred outflows for the deferred charge on refunding reported in the government-wide and proprietary fund statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized on a straight-line basis over the shorter of the life of the refunded or refunding debt. In addition, the County reports deferred outflows of resources related to its pension and other postemployment benefit plans. A portion of these costs also represent contributions to the pension and other postemployment benefit plans subsequent to the plan measurement date.

Compensated Absences

Eligible employees are permitted to accumulate earned but unused vacation pay benefits in varying amounts based on length of service and certain other established criteria. Vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Accrued vacation time is reported as a component of accrued liabilities in the Department of Public Works enterprise fund and the Airport Authority component unit.

Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

Notes to Financial Statements

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The governmental funds report unavailable revenues, which arise only under a modified accrual basis of accounting, from four sources: installment sales agreement, opioid settlement, loans, and property taxes receivables. Additionally, the Drainage Districts component unit reports unavailable revenues from special assessments and an installment sales agreement receivable. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Property taxes (excluding those for the General Fund, which are subject to a different timeline) are levied and attach as an enforceable lien on property on December 1. Property taxes unpaid as of February 28 are considered to be delinquent. Although the County's 2022 ad valorem tax (excluding the portion for general operations) is levied and collectible on December 1, 2022, it is the County's policy to recognize revenues from the December 1 tax levy in the subsequent year when the proceeds of this levy are budgeted and made available for the financing of the County's operations.

The statements of net position and governmental funds balance sheet report deferred inflows related to leases. The amounts are deferred and amortized over the remaining life of the lease.

Finally, the County reports deferred inflows of resources related to its pension and other postemployment benefit plans.

Notes to Financial Statements

Fund Equity

Governmental funds report nonspendable fund balance for amounts that cannot be spent because they are either (a) not in spendable form, (b) legally or contractually required to be maintained intact or (c) represent long-term advances in the General Fund. Restricted fund balance is reported when externally imposed constraints are placed on the use of resources by grantors, contributors, or laws or regulations of other governments. Committed fund balance is reported for amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Commissioners (the government's highest level of decision-making authority). A formal resolution of the Board of Commissioners is required to establish, modify, or rescind a fund balance commitment. The County reports assigned fund balance for amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The Board of Commissioners, pursuant to the County's Fund Balance/Fund Equity policy, has delegated the authority to assign fund balance to the County Administrator/Controller or their designee. Unassigned fund balance is the residual classification for the General Fund and includes all amounts not reported in the other classifications. Other governmental funds besides the General Fund can only report a negative unassigned fund balance, which would occur if expenditures were to be incurred for specific purposes that exceeded the amounts restricted, committed or assigned in the fund.

The County Board of Commissioners has formally established a budget stabilization arrangement under which it commits General Fund fund balance in an amount equal to 10% of the subsequent year's adopted General Fund and subsidized governmental fund budgets to insulate County programs and current service levels from large (\$1 million or more) and unanticipated one time General Fund expenditure requirements, reductions in budgeted General Fund revenues due to a change in state or federal requirements, adverse litigation, catastrophic loss, or any similar swift unforeseen event. Expenditures may occur only when specific circumstances exist and these circumstances are not expected to occur routinely. This commitment may be used if one of the several potential qualifying events occurs (as detailed in the County's fund balance/fund equity policy), the County Administrator/Controller estimates the qualifying event will cost \$1 million or more, and the Board of Commissioners, by majority vote of members present, affirms the qualifying event. As of September 30, 2023, the balance in the stabilization arrangement was \$35,365,728.

The County Board of Commissioners has adopted a minimum fund balance policy in which the total fund balance of the General Fund will be equal to at least 40% of the subsequent year's adopted General Fund budgeted expenditures and transfers out. If the General Fund balance falls below the minimum range, the County will replenish shortages or deficiencies using budget strategies and timeframes as detailed in the policy. At September 30, 2023, total fund balance of the General Fund met the minimum percentage requirement.

When the government incurs an expenditure for purposes for which various fund balance classifications can be used, it is the government's policy to use restricted fund balance first, then committed fund balance, assigned fund balance, and finally unassigned fund balance.

Notes to Financial Statements

Interfund Transactions

During the course of normal operations, the County has numerous transactions between funds and component units, including expenditures and transfers of resources to provide services, construct assets, and service debt. The accompanying financial statements generally reflect such transactions as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements. Internal service funds are used to record charges for services to all County departments and funds as transfers or operating revenue. All County funds record these payments to the internal service funds as transfers or operating expenditures/expenses.

Capital Contributions - Gerald R. Ford International Airport Authority

Passenger facility charges (PFC) are collected from airlines that service the airport for each enplaned passenger, and such charges must be used to fund capital projects. The Authority received approval from the Federal Aviation Administration (FAA) on September 9, 1992 to start collecting a \$3 PFC. The Authority received approval to use PFC revenue previously collected, as well as future charges, on February 2, 1996. The PFC revenue is being used to pay debt service on the Airport Revenue Refunding Bonds, Series 2018 (previously, Series 2009). On September 8, 2005, the FAA approved a \$1.50 increase of the PFC to \$4.50. The additional PFC revenue will be used for terminal improvements. Passenger facility charges are recorded as nonoperating revenue when the underlying transaction between the airline and the passenger occurs.

Customer facility charges (CFC) are collected for rental-car-related capital projects. The CFC of \$3 per transaction day on rental car transactions was approved by the Gerald R. Ford International Airport Authority board on August 31, 2005. The CFC revenue was used to develop new rental car service facilities and rental vehicle ready/return spaces in the parking structure. Consequently, revenue is recognized when earned and is classified as nonoperating revenue. As of March 1, 2016, the amount collected in CFCs and rental income from the car rental agencies reached the total amount expended in the development of the new rental car service facilities. At that time, the board approved for the CFC revenue to be put towards the payment of debt incurred during the 2015 construction of the roof of the parking structure, as well as a maintenance fund for the car rental service facilities. The Authority estimates that the total amount needed to pay off the debt and the maintenance fund for 15 years is \$37 million. Based on current collection rates, the Authority anticipates that the total amount will be collected via CFCs by December 31, 2030.

The Authority received a significant amount of funding through the Airport Improvement Program of the Federal Aviation Administration, with certain matching funds provided by the Authority and the State of Michigan. Capital funding provided under government grants is recognized when all eligibility criteria have been met, which is typically when the related allowable expenditures have been incurred. Grants for capital asset acquisitions, facilities development, and rehabilitation are reported in the statement of revenue, expenses, and changes in net position after nonoperating revenue (expenses) as capital contributions.

Notes to Financial Statements

Revenue Concentrations

The Department of Public Works enterprise fund has five major customers accounting for 60.0% of net sales during the period ended September 30, 2023. The same customers accounted for 50.5% of accounts receivable at September 30, 2023.

Pension and Other Postemployment Benefits Plans

The financial statements of the Kent County Employees' Retirement Plan and the Voluntary Employees' Beneficiary Association (the "Plans") are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period which the contributions are due. The County's contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Dividend income is recognized based on the ex-dividend date, and interest income is recognized on the accrual basis as earned. All realized gains and losses on investments are recognized at the point of sale and are included in investment income. Purchases and sales of investments are recorded as of the trade date, which is the date when the transaction is initiated. Administration costs are financed initially through forfeited contributions by terminated employees not vested in the Plans and through the Plans' investment earnings.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates. The County utilizes various investment instruments which are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

2. DEPOSITS AND INVESTMENTS

General County

Most cash, investments and accrued interest of the individual funds, except those of the retirement plans, are combined in the County's Pooled Cash and Investment System, which is managed by the County Treasurer. The external portion of the investment pool is reported as an investment trust fund in the fiduciary funds. The internal portion is reported as "cash, investments, and accrued interest" in each fund.

Notes to Financial Statements

Following is a reconciliation of deposit and investment balances as of September 30, 2023:

	G	Primary overnment	C	Component Units		Totals
Statement of Net Position						
Cash, investments, and accrued interest	\$	340,226,767	\$	64,413,500	\$	404,640,267

Total					\$ 1	.,775,880,499

Notes to Financial Statements

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that, in the event of a bank failure, the County's deposits might not be returned. It is County policy to review and verify a bank's creditworthiness through a system of ratio analysis and from information provided by several third-party sources. In addition, the County's investment policy places concentration limits on the total amount deposited with a single financial institution. As of period-end, \$324,825,685 of the County's bank balance of \$335,731,576 was exposed to custodial credit risk because it was uninsured and uncollateralized.

Due to the dollar amounts of cash deposits and the limits of FDIC insurance, the County believes it is impractical to insure all bank deposits. As a result, the County evaluates each financial institution with which it deposits County funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Custodial Credit Risk – Investments. Following is a summary of the County's investments as of September 30, 2023:

Pooled investments:

Money market funds	\$ 161,825,079
U.S. government securities	217,549,596
Total pooled investments	379,374,675
Separately-held investments:	
Money market mutual fund	2,967,560
Total	\$ 382,342,235

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County's investment policy requires that all investment transactions be conducted through a custodian that will act as the system's third party as evidenced by safekeeping receipts in the County's name. The investment policy requires that the safekeeping institution shall annually provide a copy of its most recent report on internal controls (SOC-1 report). To reduce custodial risk further, the County's investment policy requires that all trades of marketable securities be executed by delivery versus payment to ensure that securities are deposited in an eligible financial institution prior to the release of funds. As of September 30, 2023, none of the County's investments were exposed to custodial credit risk inasmuch as all investments are held in the name of the County.

Credit Risk. Statutes and various bond indentures authorized the County to invest in obligations of the U.S. Treasury, governmental agencies and instrumentalities, commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services, bankers' acceptances of U.S. banks, U.S. government or federal agency obligation repurchase agreements, obligations of the State of Michigan or any of its political subdivisions rated as investment grade by not less than one standard rating service, and mutual funds composed of the types of investment vehicles named previously.

Notes to Financial Statements

The Department of Public Works enterprise fund and the County debt service and capital projects funds are authorized to invest in the same types of investments described above, except that additional restrictions are placed on the classifications for commercial paper purchases and the type of financial institution from which investments may be purchased. The County's investment policy requires that commercial paper have a minimum quality rating of P1 from Moody's or A1 from Standard & Poor's at the time of purchase. Mutual fund investments must have a par share value intended to maintain a net asset value of at least \$1.00 per share. Credit risk ratings, where applicable, are summarized as follows:

	Pooled Investments	Separately-held Investments	Totals
S&P AAA/AAAm S&P AA+	\$ 161,825,079 217,549,596	\$ 2,967,560	\$ 164,792,639 217,549,596
Total	\$ 379,374,675	\$ 2,967,560	\$ 382,342,235

Interest Rate Risk. Interest rate risk is the risk that the market rate of securities in the portfolio will fall due to changes in market interest rates. State law limits the allowable investments and the maturities of some of the allowable investments as identified in the summary of significant accounting policies. To limit its exposure to fair value losses from rising interest rates, the County's investment policy requires that the investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. This is accomplished by investing operating funds primarily in shorter-term securities, money market mutual funds, or similar investment pools and limiting the average maturity of the portfolio as required by the County's policy.

Maturity dates for investments held at September 30, 2023 are summarized as follows:

			Due in 1-5	
	No maturity	Due < 1 year	years	Totals
Pooled investments:				
Money market funds	\$ 161,825,079	\$ -	\$ -	\$ 161,825,079
U.S. government securities		147,032,652	70,516,944	217,549,596
	161,825,079	147,032,652	70,516,944	379,374,675
Separately-held investments:				
Money market mutual funds	2,967,560		-	2,967,560
Total	\$ 164,792,639	\$ 147,032,652	\$ 70,516,944	\$ 382,342,235

The money market funds are comprised of short-term securities (maturity generally less than 90 days). The average portfolio maturity for the separately-held mutual funds is 27 days.

Notes to Financial Statements

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the County's investment in a single issuer. State law limits allowable investments but does not limit concentration of credit risk as identified in the list of authorized investments in the summary of significant accounting policies. The County's investment policy provides that, with the exception of U.S. Treasuries and authorized pools, no more than 25% of the portfolio shall be invested in a single security type or with a single financial institution. At September 30, 2023, the County had no investment in a single issuer that exceeded 25% of total investments.

Fair Value Measurement. The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The County has the following recurring fair value measurements as of September 30, 2023:

					Carried at	
		Level 1	Level 2	An	nortized Cost	Total
U.S. government securities Money market mutual funds	\$	- 2,967,560	\$ 217,549,596 -	\$	- 75,759,941	\$ 217,549,596 78,727,501
Total investments by fair value level	\$	2,967,560	\$ 217,549,596	\$	75,759,941	296,277,097
Investments carried at net asset value: Michigan CLASS government investment	ent ¡	oool				86,065,138
Total investments						\$ 382,342,235

Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. After the initial offering period, U.S. government securities are valued based on active trade data for comparable investments. Money market mutual funds are valued by fund managers based on the fair value of the underlying securities. The County's investment in the Michigan Liquid Asset Fund (MILAF) is carried at amortized cost (which approximates fair value).

The County holds shares in the Michigan CLASS government investment pool whereby the fair value of the investment is measured on a recurring basis using net asset value per share (or its equivalent) of the investment pool as a practical expedient.

Notes to Financial Statements

At September 30, 2023, the net asset value of the County's investment in the Michigan CLASS government investment pool was \$86,065,138. The investment pool had no unfunded commitments, specific redemption frequency or redemption notice period required. The Michigan CLASS government investment pool invests in U.S. treasury obligations, federal agency obligations of the U.S. government, high-grade commercial paper (rated 'A-1' or better) collateralized bank deposits, repurchase agreements (collateralized at 102% by Treasuries and agencies), and approved money-market funds. The program seeks to provide safety, liquidity, convenience, and competitive rates of return, and is designed to meet the needs of Michigan public sector investors. It purchases securities that are legally permissible under state statutes and are available for investment by Michigan counties, cities, townships, school districts, authorities and other public agencies.

Pension and Other Postemployment Benefits Trust Funds

The deposits and investments of the County's pension and other postemployment benefits trust funds are maintained separately from the County's pooled cash and investments, and are subject to separate investment policies and State statutes. Accordingly, the required disclosures for the pension and other postemployment benefits trust deposits and investments are presented separately.

Deposits. The pension trust fund does not maintain any checking or other demand/time deposit accounts. Amounts reported as cash and cash equivalents in the statement of fiduciary net position are composed entirely of short-term investments in money market accounts.

Investments. The Michigan Public Employees Retirement Systems' Investment Act, Public Act 314 of 1965, as amended, authorizes the pension and other postemployment benefits trust funds to invest in stocks, governmental and corporate securities, mortgages, real estate, and various other investment instruments, subject to certain limitations. The Pension and VEBA boards have the responsibility and authority to oversee the investment portfolio. Various professional investment managers are contracted to assist in managing the trust funds' assets. All investment decisions are subject to Michigan law and the respective investment policies established by the Pension and VEBA boards.

The investments of each pension and other postemployment benefits trust funds are held in a bank administered trust fund.

Notes to Financial Statements

Following is a summary of pension and other postemployment benefits trust investments as of December 31, 2022:

	Pension Trust		VEBA Trust		Total	
U.S. government obligations	\$	27,794,685	\$	-	\$	27,794,685
U.S. government agency obligations		354,060		-		354,060
Municipal obligations		452,608		-		452,608
Corporate obligations		23,911,599		-		23,911,599
Common stock		398,099,712		-		398,099,712
Foreign obligations		10,878,211		-		10,878,211
Foreign common stock		3,178,995		-		3,178,995
Money market funds		22,887,191		-		22,887,191
International equity mutual funds		182,946,739		8,791,900		191,738,639
Domestic equity mutual funds		-		17,741,658		17,741,658
Domestic fixed income mutual funds		-		5,709,260		5,709,260
International fixed income mutual funds		137,958,489		8,629,992		146,588,481
Real estate and infrastructure securities		91,116,027		2,848,415		93,964,442
Asset-backed securities		9,536,477		-		9,536,477
Mortgage-backed securities fund		47,887,083		-		47,887,083
Total investments	\$	957,001,876	\$	43,721,225	\$ 1	1,000,723,101

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Plan's investment policy requires that bonds have a minimum quality rating of Baa3/BBB/BBB- at the time of purchase. The overall portfolio is expected to maintain an average credit quality of A- or higher. Money market instruments shall have a minimum quality rating comparable to an A bond rating and commercial paper shall not be rated less than A1/P1 unless held in a diversified short-term commingled fund. For collateralized mortgage obligations, only issues rated AA-/Aa3 or better at time of purchase are permitted.

Notes to Financial Statements

As of December 31, 2022, the pension and other postemployment benefits trust investments had the following credit risk ratings:

	Pension Trust	VEBA Trust	Total
Standard and Poor's AAA	\$ 5,447,846	\$ -	\$ 5,447,846
Standard and Poor's AA	2,418,061	-	2,418,061
Standard and Poor's A	10,435,442	-	10,435,442
Standard and Poor's BBB	22,421,638	-	22,421,638
Standard and Poor's BB	448,325	-	448,325
Standard and Poor's B	22,864	-	22,864
Unrated	132,431,097	-	132,431,097
Not subject to credit risk	783,376,603	43,721,225	827,097,828
Total	\$ 957,001,876	\$ 43,721,225	\$ 1,000,723,101

Custodial Credit Risk. For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County's pension investment policies require that investment securities be held in trust by a third-party institution in the name of the pension trust fund. As such, although uninsured and unregistered, the County's pension investments are not exposed to custodial credit risk since the securities are held by the counterparty's trust department in the name of the pension trust fund. Open-end mutual funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book form.

The amounts reported as cash and money market funds in the statement of fiduciary net position are insured by the Federal Depository Insurance Corporation and the Securities Investors Protection Act, respectively, for up to \$250,000 and \$500,000 per financial institution, respectively. The carrying amount of the pension accounts as of December 31, 2022 was \$22,887,191, of which the insured amount was \$2,000,506; the remaining balance of \$20,886,685 is uninsured and uncollateralized. As of year-end, \$610,127 of the VEBA's bank balance of \$860,127 was exposed to custodial credit risk because it was uninsured and uncollateralized.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the Plan's investment in a single issuer. For fixed income portfolios, the Plan's Investment Policy provides that, with the exception of U.S. treasuries and agencies, no more than 3% of the portfolio shall be invested in the obligations of any one issuer. For equity portfolios, no single company's securities should represent more than 5% at cost, or 7% at market value, of the individual manager's portfolio. Collateralized mortgage obligations are limited to 5% per issue. As of December 31, 2022, the pension and other postemployment benefits trust fund had no investment in a single issuer, other than U.S. treasuries and agencies, that exceeded the above percentages.

Notes to Financial Statements

Foreign Currency Risk. Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. Foreign currency risk is mitigated by requiring the portfolio to be broadly diversified by number of holdings, by geographic location and across industry sectors. Country exposures are monitored through a quarterly performance report. The exposure to foreign currency risk is as follows:

Investment (currency in U.S. dollar)	Pension Trust	VEBA Trust	Total
Foreign obligations	\$ 10,878,211	\$ -	\$ 10,878,211
Foreign common stock	3,178,995	-	3,178,995
International equity mutual funds	182,946,739	8,791,900	191,738,639
International fixed income mutual funds	137,958,489	8,629,992	146,588,481
Total	\$ 334,962,434	\$ 17,421,892	\$ 352,384,326

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Plans' policies provide for their fixed income portfolios to have an average duration of no more than 120% of the duration of the stated benchmark which varies by portfolio. Investments in equity mutual funds are comprised of securities with no stated maturity date. Accordingly, such investments are deemed to have an average duration of zero years. The VEBA Plans' investments in fixed income mutual funds have average durations ranging from 5.47 to 7.74 years.

At December 31, 2022, maturities of the County's pension and VEBA investments were as follows:

Pension Trust	VEBA Trust	Total
\$ 4,658,269	\$ -	\$ 4,658,269
31,843,527	-	31,843,527
23,876,313	-	23,876,313
38,473,568	-	38,473,568
858,150,199	43,721,225	901,871,424
\$ 957,001,876	\$ 43,721,225	\$ 1,000,723,101
	\$ 4,658,269 31,843,527 23,876,313 38,473,568 858,150,199	\$ 4,658,269 \$ - 31,843,527 - 23,876,313 - 38,473,568 - 858,150,199 43,721,225

Fair Value Measurement. The Plans categorize fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

Notes to Financial Statements

The pension trust has the following recurring fair value measurements as of December 31, 2022:

		Level 1		Level 2		Level 3		Total
U.S. government obligations	\$	_	\$	27,794,685	\$	_	\$	27,794,685

Total investments	\$ 22,111,314	\$ 18,761,496	\$ 2,848,415	\$ 43,721,225

Notes to Financial Statements

Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Debt securities are valued by the Plans' investment custodian using independent pricing services based on the type of asset. The pricing services may use valuation models or matrix pricing, which consider: (a) benchmark yields, (b) reported trades, (c) broker/dealer quotes, (d) benchmark securities, (e) bids or offers, and (f) reference data. Asset-backed and mortgage-backed securities funds are valued based on the future cash flows of the principal and interest payments of the underlying collateral of mortgages on various assets. The fair value of real estate and infrastructure investments is based on independent appraisals.

Certain investments are subject to redemption restrictions. Real estate and infrastructure securities are restricted based on the applicable portfolio: (a) quarterly with a 45-day written notice, or (b) on March 31 or September 30 with a 90-day notice. Equity mutual funds are generally restricted to redemption on the first or last day of each month. All other investments are subject to daily redemption.

Cash and Investment Pool

The County maintains a cash and investment pool that is available for use by all funds, component units and, on a voluntary basis, other local units of government, except the Employees' Retirement and VEBA Plans. The cash and investment pool is not subject to regulatory oversight, is not registered with the SEC and does not issue a separate report. The net asset value of the pool does not fluctuate and the fair value of the position in the pool is the same as the value of the pool shares. The cash and investment pool has not provided or obtained any legally binding guarantees during the period to support the value of the shares. Investments are valued monthly. The investment pool follows the County's investment policy.

The following condensed financial statements for the cash and investments include the activity of all funds, component units and local units of government in the pool:

Condensed Statement of Net Position

Assets	
Demand deposits	\$ 23,579,497

Custodial Credit Risk. At September 30, 2023, the carrying amount of the cash and investment pool's deposits was \$247,206,038 and the bank balances totaled \$249,135,177. Of the bank balance, \$5,500,000 was insured and \$243,635,177 was uninsured and uncollateralized. In addition, the cash and investment pool maintained imprest cash and cash on hand of \$33,271. There was no custodial credit risk related to the investments.

Credit risk ratings for the cash and investment pool are included in the disclosures above.

Concentration of Credit Risk. Concentration of credit risk disclosures are included in the information above.

Notes to Financial Statements

3. RECEIVABLES

Receivables are comprised of the following at period-end:

	Governmental Activities		isiness-type Activities	C	Component Units
Accounts Less: allowance for uncollectibles Taxes (current) Taxes (delinquent) Due from other governments	\$	16,071,105 - 18,207,967 436,986 20,808,760	\$ 6,161,649 (38,000) - 10,448,244 1,713,238	\$	15,387,581 - - - 18,995,969
Loans Special assessments		1,498,928 -	-		- 4,377,936
Installment sales agreement Leases		18,195,826 13,710,833	- -		6,047,458 12,506,971
Total receivables	\$	88,930,405	\$ 18,285,131	\$	57,315,915

The Airport Authority component unit and Delinquent Tax Revolving enterprise fund reported restricted receivables of \$1,257,406 and \$10,199,861, respectively. The Airport Authority's restricted receivable is restricted for capital improvements related to passenger and customer facility charges. The Delinquent Tax Revolving Fund's restricted receivables are restricted for debt service payments on the 2022 and 2023 General Obligation Limited Tax Notes.

Of the amounts reported for receivables above, the following are not expected to be collected within one year:

	Governmental		Business-type		C	Component
	Activities		Activities			Units
Accounts	\$	6,223,582	\$	-	\$	1,257,406
Loans		1,498,928		=		-
Special assessments		-		=		4,194,946
Installment sales agreement		16,148,703		=		5,220,925
Leases		11,380,150		-		10,667,189
Total receivables	\$	29,027,781	\$	-	\$	20,083,060

The amount recorded as an allowance for uncollectibles in business-type activities is related to billings receivable in the Department of Public Works enterprise fund.

Notes to Financial Statements

4. OTHER ASSETS

Other assets are comprised of the following at period-end:

	 vernmental Activities		iness-type activities	Component Units		
Inventories Prepaids	\$ \$ 1,163,343 1,282,721		\$ - 240,573		3,466,857 2,450,706	
Total	\$ 2,446,064	\$	240,573	\$	5,917,563	

5. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Payables are comprised of the following at period-end:

	Go	overnmental Activities	В	usiness-type Activities	C	Component Units
Accounts Accrued liabilities Due to other governments Accrued interest on long-term debt	\$	25,261,950 10,841,681 106,684 1,240,658	\$	11,510,414 2,280,740 - 138,146	\$	26,978,788 1,521,684 582,067 4,849,265
Total	\$	37,450,973	\$	13,929,300	\$	33,931,804

6. INTERFUND RECEIVABLES AND PAYABLES AND TRANSFERS

The composition of interfund balances as of September 30, 2023, was as follows:

Due to and from primary government funds

		Due from		Due to
	O	ther Funds	C	ther Funds
General fund	\$	8,602,010	\$	18,072,131
Coronavirus		-		47,925
Public improvement		4,037,262		39,350
Nonmajor governmental funds		4,397,488		8,874,371
Department of public works		475,731		475,981
Internal service funds		10,000,267		3,000
Total	\$	27,512,758	\$	27,512,758

Notes to Financial Statements

In addition, an interfund balance existed between governmental activities and business-type activities in the amount of \$229,759. This resulted from the allocation of a portion of internal service fund net position of governmental-type internal service funds to business-type activities.

Due to and from component units

	_	Oue from omponent Units	Due to Primary overnment	
General fund Drainage Districts	\$	1,612,075	\$ - 1,612,075	
Total	\$	1,612,075	\$ 1,612,075	

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Advances to and from component units

	 dvances to omponent Units	vances from Primary overnment
General fund Drainage Districts	\$ 1,090,956 -	\$ - 1,090,956
Total	\$ 1,090,956	\$ 1,090,956

For the period ended September 30, 2023, interfund transfers consisted of the following:

				Nonmajor						
	_			Public	G	overnmental	Int	ernal Service		
Transfers out	G	eneral Fund	In	nprovement		Funds		Funds		Totals
General fund	\$	-	\$	14,887,127	\$	23,296,458	\$	10,220,000	\$	48,403,585
Coronavirus		-		468,513		6,000,000		-		6,468,513
Public improvement		-		-		643,317		-		643,317
Nonmajor governmental										
funds		12,612,694		-		2,936,731		-		15,549,425
Total	\$	12,612,694	\$	15,355,640	\$	32,876,506	\$	10.220.000	\$	71,064,840
Total	\$	12,612,694	<u>Ş</u>	15,355,640	<u>Ş</u>	32,8/6,506	Ş	10,220,000	<u>Ş</u>	/1,064,840

Notes to Financial Statements

Transfers are used to: (1) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; (2) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due; (3) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; (4) use unrestricted revenues collected in the General Fund of \$8 million for the funding of the Insurance Authority Internal Service Fund and \$2 million for insurance liability reserves; and (5) move unrestricted revenue to the nonmajor Building Authority Capital Projects Fund for the future Medical Examiner Facility.

7. CAPITAL ASSETS

Primary government

Capital asset activity for the primary government for the period ended September 30, 2023, was as follows:

The Kent County Building Authority bonds are backed by the limited tax, full faith and credit of the County, and debt service requirements are to be funded with lease payments.

There are a number of limitations and restrictions contained in the various bond indentures. All revenue bonds outstanding and interest thereon are secured by a statutory first lien, subject only to prior liens, on the net revenues of the Airport Authority. In compliance with bond agreements, the Airport Authority has available a letter of credit totaling \$17,844,417, which has not been drawn upon. The letter of credit expires on December 1, 2023. In addition, all the bonds bear the limited tax pledge of the full faith and credit of the County to advance necessary amounts to meet principal and interest payments in the event that revenues of the Airport Authority are insufficient to meet requirements.

The tax notes payable are backed by the limited tax, full faith and credit of the County. Current debt service requirements are funded by the collection of delinquent tax revenues and are maintained in an enterprise fund.

Drain special assessment bonds are backed by the limited tax, full faith and credit of the County. Current debt service requirements are funded through special assessments levied against properties or governmental units deemed to benefit from these public improvements.

The compensated absences liability attributable to the governmental activities will be liquidated by the General Fund and various special revenue funds. The pollution remediation liability in governmental activities is expected to be paid from the Capital Improvement Program capital projects fund.

Notes to Financial Statements

Pledged Revenue

The Airport Authority has pledged airport revenue as security for outstanding bonds, which were issued to provide funding for various capital projects. The Authority has committed to appropriate each year, from certain airport revenue net of related operating expenses, amounts sufficient to cover the principal and interest requirements of the debt. Total principal and interest remaining on the debt is \$325,885,242, with annual requirements ranging from \$13,753,190 in 2023 to \$6,995,625 in the final year. For the year ended December 31, 2022, there was \$8,795,000 in principal payments and interest expense totaled \$8,961,695. Net revenue pledged for debt service was approximately \$34,350,000 for the year ended December 31, 2022.

9. LEASES

Lessee - The County is involved in four agreements as a lessee that qualifies as long-term lease agreements. Below is a summary of the nature of these agreements. These agreements qualify as intangible, right-to-use assets and not a financed purchases, as the County will not own the asset at the end of the contract term and the noncancelable term of the agreements surpasses one year.

The right-to-use-assets and the related activity are included in Note 7, Capital Assets. The lease liability and related activity are presented in Note 8, Bonds, Notes and Other Long-term Liabilities.

Remaining Term	
of Agreement	

Asset Type

Land 7 years
Buildings and improvements 1-10 years
Vehicles 2-3 years

The net present value of future minimum payments as of September 30, 2023 were as follows:

	Governmental Activities				Business-type Activities			
Fiscal Year								
Ended		Principal		Interest	Principal		Interest	
2024	\$	76,536	\$	6,558	\$	129,416	\$	12,652
2025		36,576		4,574		131,883		10,185

Totals	\$	355,046	\$	28,555	\$	759,663	\$	41,830

Notes to Financial Statements

Lessor - The County is involved in agreements as a lessor that qualifies as long-term lease agreements. Below is a summary of these agreements. These agreements qualify as long-term lease agreements as the County will not surrender control of the assets at the end of the term and the noncancelable term of the agreements surpasses one year. Total lease revenue for the period ended September 30, 2023 was \$2,210,215.

Remaining Term
of Agreements

Asset Type

Buildings and improvements 4-16 years
Machinery and equipment 16-17 years

Gerald R. Ford International Airport Authority

The Airport Authority leases certain assets to various third parties. The assets leased include land, building facilities, and office/operating space inside the airport terminal. Additionally, the Airport Authority is party to certain regulated leases, as defined by GASB 87. The leased assets include land that the lessee uses for hangar construction and use, FBO operations, cargo facilities, hangars, terminal space, and other building facilities. Complete disclosures related to the Airport Authority's lease activity are available in its separately-issued audit report.

10. SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS (SBITA)

The County is involved in seven arrangements that qualify as long-term SBITA arrangements. Below is a summary of the nature of these arrangements. These arrangements qualify as intangible, right-to-use assets and not financed purchases, as the County will not own the asset at the end of the contract term and the noncancelable term of the arrangements surpasses one year.

The right-to-use-assets and the related activity are included in Note 7, Capital Assets. The SBITA liability and related activity are presented in Note 8, Bonds, Notes and Other Long-term Liabilities.

Remaining Term of Arrangement

Asset Type

Subscription assets 2-8 years

Notes to Financial Statements

The net present value of future minimum payments as of September 30, 2023 were as follows:

	Governmental Activities						
Fiscal Year							
Ended	F	Principal		Interest			
2024	\$	453,635	\$	41,549			
2025		447,409		20,225

2028		71,408		3,592			
2029-2031		165,334		3,416			
				_			
Totals	\$	1,533,524	\$	82,444			

11. RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County is self-insured and retains the risk for deductible amounts under the County's workers' compensation, property, automobile, and certain general and public officials' liability programs. The County purchases commercial insurance for claims in excess of retention deductible amounts of \$1,000,000 for general liability, \$600,000 for each workers' compensation claim and \$100,000 for each property damage claim, up to various maximum and aggregate policy limits. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years. There have been no significant changes in insurance coverage from the prior year. The County is also self-insured for dental and medical benefits provided to employees who meet certain eligibility requirements.

The County manages its risks internally and has set aside assets for claim settlement in its Risk Management and Employee Benefits internal service funds. These funds allocate the cost of providing claims servicing and claims payments by charging a "premium" to each fund based upon various allocation bases. This charge considers recent trends in actual claims experience of the County as a whole and makes provision for catastrophic losses.

Risk Management and Employee Benefits internal service funds liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an accumulation of case estimates for losses reported prior to the close of the accounting period and estimates for claims that have been incurred but not reported (including future claim adjustment expenses) based on past loss experience and consideration of current claim trends, as well as prevailing social, economic and local conditions. Estimated amounts of salvage and subrogation and reinsurance recoverable on unpaid claims are deducted from the liability for unpaid claims.

Notes to Financial Statements

Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

Changes in the balances of claims liabilities are as follows:

	Employee Benefits						
		Health		Dental	Une	mployment	
Estimated liability,							
January 1, 2022	\$	924,667	\$	123,871	\$	_

The Department of Public Works is included in the County's self-insurance program, although separate insurance coverage is maintained for some enterprise-specific operations.

Notes to Financial Statements

12. PROPERTY TAXES

County General Fund property taxes are levied on July 1 of each year (the lien date) and are due in full by September 14, though they do not become delinquent until March 1 of the following year. For levies other than the General Fund, the lien date is December 1.

Property taxes are levied on the assessed taxable value of the property as established by local units, accepted by the County and equalized under State statute at approximately 50% of the current estimated market value.

The taxable value of real and personal property for 2023, for which revenue was recognized in the General Fund, was \$30,801,702,888. The general operating tax rate for this levy was 4.1310 mills. The taxable value of real and personal property for 2022, for which revenue was recognized in all other funds, was \$28,356,730,292. The tax rates for these levies were 0.7546 mills for Correction and Detention operations and debt service related to the expansion of facilities, 0.5000 mills assessed for services provided to senior citizens, 0.0500 mills assessed for services provided to veterans, 0.4206 mills assessed for the zoo and museum and 0.2409 mills assessed for early childhood development.

Tax Abatements

The County property tax revenues during 2023 were reduced by Industrial Property Tax abatement programs and Brownfield Redevelopment Agreements entered into by other taxing jurisdictions within the County. Accordingly these agreements meet the criteria of "tax abatements" under GASB Statement No. 77.

Industrial property tax abatements are granted in the State of Michigan under Public Act 198, as amended, to promote economic development, creation of jobs, and new or improved facilities. The industrial facilities tax (IFT) exemption must be approved by both the local unit (after a public hearing is held) and the State of Michigan. IFT exemptions can cover real and/or personal property. By State law, the exemption must be applied for no later than six months after commencement of the project, and must be accompanied by a written agreement between the taxpayer and the local unit. An exemption allows for taxation on IFT property at 50% of the local property tax millage rate for a period of 1 to 12 years. Property taxes abated by the County in 2023 amounted to \$1,119,619.

Brownfield redevelopment agreements are intended to reimburse taxpayers that remediate environmental contamination on their properties. These agreements were entered into based upon the Brownfield Redevelopment Act, PA 381 of 1996, as amended. Under this act, a municipality may create a brownfield redevelopment authority to develop and implement brownfield projects. Tax increment financing may be used as a tool for property redevelopment. These abatements amounted to approximately \$1,758,981 in reduced tax revenues to the County for the fiscal period 2023.

Notes to Financial Statements

Local governments within Kent County use Payment in Lieu of Taxes (PILOT) Programs that are designed to provide tax abatements primarily for owners of low to moderate income multi-family housing units. Under this program the local governments establish ordinances and enter into agreements that allow the low to moderate multi-family housing unit property owners to make payments at lower amounts then would have been otherwise due in the normal course of property tax collection. The County has estimated the PILOT abatement impact amounted to \$689,919 for the period.

13. CONTINGENT LIABILITIES

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County and its Corporate Counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the County. Due to recent court settlements related to sales of auctioned/foreclosed properties the County has estimated a maximum potential impact of \$3.4 million. The County has estimated actual claims to be \$1.2 million which has been recorded as an accrued liability at September 30, 2023. The remaining \$2.2 million is considered a contingent liability at period end.

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

In March 2018, the Gerald R. Ford International Airport Authority was approached by the Michigan Department of Environmental Quality (MDEQ) Remediation and Redevelopment Division, Grand Rapids District Office, regarding historical use of firefighting foam. In response, the Authority began a stepwise approach to further understand the use of aqueous film-forming foam (AFFF) at the airport. Use is generally summarized as follows from our April 13, 2018 response to the MDEQ: "Firefighting materials at the airport (and all U.S. commercial airports) are specified and regulated by the Federal Aviation Administration. The military specification (Mil-Spec) specifying which aqueous film-forming foam is permitted to be used pursuant to FAA regulations has changed over time. The latest Mil-Spec from September 2016 requires AFFF formulations, and the immediately prior formulation contained some form of per- and polyfluoroalkyl substances (PFAS)." There are three main scenarios in which AFFF may be used at an airport: training, equipment testing, and to extinguish fuel-fed fires. The Authority has utilized best practices to meet FAA regulations in all of these use scenarios. Following the April 2018 letter, the Authority fostered a collaborative effort with regulatory agencies, including the Michigan Department of Environment, Great Lakes, and Energy (EGLE - formerly the MDEQ), Michigan Department of Health and Human Services, and the Kent County Health Department and conducted numerous water and soil tests in the vicinity of a former on-site firefighter training area. This investigation has continued through 2022 and a settlement agreement was reached between Cascade Charter Township ("Township") and the Authority, effective April 26, 2023. The agreement states that the Authority is obligated to reimburse the Township in the amount of \$515,000 for temporary drinking water relief the Township is providing to affected residents as well as approximately \$1.6 million for capital costs associated with upgrades to the municipal water system that will be made in 2023 and 2024.

Notes to Financial Statements

14. BENEFIT PLANS

Kent County Employees' Retirement Plan

The County sponsors and administers the Kent County Employees' Retirement Plan (the "Plan"), a single-employer, defined benefit pension plan, which covers all employees of Kent County, except employees of the Road Commission and Airport Authority. The Plan was established by the Kent County Board of Commissioners and is administered by a seven member Board called the Kent County Employees' Retirement Plan Pension Board (referred to herein as the "Board of Trustees"). The Board is comprised of the Chairperson of the Finance Committee of the Commissioners, one other Commissioner appointed by the Board of Commissioners, three employees covered by the Plan, and two residents of the County that are independent of the County and the Plan. Employee contribution requirements were established and may be amended subject to collective bargaining agreements and approval by the Kent County Board of Commissioners. The Plan provides retirement, disability and death benefits to plan members and their beneficiaries. It is accounted for as a separate pension trust fund. Stand-alone financial reports are issued that include financial statements and required supplementary information for the Plan, which may be obtained from the County of Kent Human Resources Department, 300 Monroe Ave. N.W., Grand Rapids, MI 49503-2222.

Plan members hired through December 31, 2010 are eligible to receive pension benefits upon retirement at age 60 with 5 years of service or at any age with 25 years of service. Members hired on or after January 1, 2011 (January 1, 2012 for the Teamsters-Parks, Circuit Court Referees, and Teamsters-Public Health Nurses) are eligible at age 62 with 5 years of service or at age 60 (55 for captains and lieutenants) with 25 years of service. Members of the KCDSA bargaining unit hired on or after January 1, 2013 are eligible to receive this benefit at age 60 with 5 years of service or age 50 with 25 years of service. An early retirement option is offered for retirement at age 55 with 15 or more years of service. Members of the FOP bargaining unit hired on or after January 1, 2015 are eligible to receive this benefit at age 60 with 5 or more years of service or age 50 with 25 years of service. An early retirement option is offered for retirement at age 55 with 15 or more years of service.

Cost-of-living adjustments (COLAs) vary based on bargaining unit and hire date and range from 1%-3%.

Benefits Provided. Employees who retire with minimum age and years of service requirements are entitled to annual retirement benefits, payable in monthly installments for life, in an amount equal to a percentage of their final average compensation times years of credited service.

Notes to Financial Statements

Employees Covered by Benefit Terms. At December 31, 2022, plan membership consisted of the following:

Retirees and beneficiaries currently receiving benefits	1,664
Terminated employees entitled to but not yet receiving benefits	249
Vested and non-vested active participants	1,563
Total membership	3,476

Contributions

Employee Contributions. After meeting eligibility requirements, active plan members are required to contribute to the Plan based on their bargaining unit or management group contribution rate. The variable rate was 8.71% for the year ended December 31, 2022. The additional amounts paid by the members of the three unions covering public safety officers are a fixed amount added to the variable rate and ranged from 1.75%-3.50%.

Employer Contributions. The County's funding policy provides for periodic employer contributions at actuarially determined rates that are expressed as percentages of annual covered payroll, and are designed to accumulate sufficient assets to pay benefits when due. The County's contribution rate for the year ended December 31, 2022, was 8.82% of projected valuation payroll. The normal cost and amortization payment were determined using an entry-age actuarial funding method. Unfunded actuarial accrued liabilities are being amortized as a level percent of payroll over a closed period of 18 years.

Investment Policy. The plan's policy in regard to the allocation of invested assets is established and may be amended by the Board of Trustees. The investment policy has been formulated based on consideration of a wide range of policies and describes the prudent investment process that the Board deems appropriate. The Plan's asset allocation policy is detailed below.

Rate of Return. For the year ended December 31, 2022, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was -13.17%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Concentrations. Information on the Plan's concentration of credit risk policy and compliance with that policy at December 31, 2022 is disclosed in Note 3 to the separately issued financial statements.

Notes to Financial Statements

Net Pension Liability. The County's net pension liability was measured as of December 31, 2022. The components of the net pension liability of the County are as follows:

Total pension liability \$ 1,088,736,683
Plan fiduciary net position 957,748,728

County's net pension liability \$ 130,987,955

Plan fiduciary net position as

percentage of total pension liability 87.97%

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation as of December 31, 2021 (rolled forward to December 31, 2022), using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.5% (price inflation of 2.5%)
Salary increases 3.5%-10.5%, including inflation

Investment rate of return 6.50%

Mortality rates were based on the RP-2014 Combined Healthy Mortality Tables with 2-dimensional, fully generational improvements projected with the MP-2018 Mortality Improvement Scales.

The actuarial assumptions used in the December 31, 2021 valuation were based on the results of an actuarial experience study dated November 8, 2018.

Notes to Financial Statements

Long-term Expected Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2022 (see the discussion of the pension plan's investment policy in Note 2) are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return	Expected Money- Weighted Rate of Return
Core bonds Multi-sector fixed income Absolute return U.S. large cap equity U.S. small cap equity International developed equity Emerging market equity Private equity Core real estate Value add real estate Infrastructure	10.00% 8.00% 5.00% 25.00% 10.00% 5.00% 5.00% 5.00% 2.00%	2.58% 3.54% 3.25% 7.17% 8.61% 8.06% 9.33% 10.55% 6.54% 8.04% 9.54%	0.26% 0.28% 0.16% 1.79% 0.86% 1.21% 0.47% 1.06% 0.33% 0.40%
Inflation Risk adjustment Investment rate of return	100.00%	9.54%	7.01% 2.75% -3.26% 6.50%

Discount Rate. The discount rate used to measure the total pension liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Plan contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to Financial Statements

Changes in the Net Pension Liability (Asset). The components of the change in the net pension liability (asset) are summarized as follows:

	Total Pension Plan Fiduciary Liability Net Position (a) (b)		Net Pension Liability (Asset) (a) - (b)
Balances at December 31, 2021	\$ 1,049,564,821	\$ 1,137,038,674	\$ (87,473,853)
Changes for the year:			
Service cost	21,725,306	-	21,725,306
Interest on total pension liability	67,228,999	-	67,228,999
Differences between expected and			
actual experience	2,487,928	-	2,487,928

Refunds of contributions	(1,110,978)	(1,110,978)	-
Net changes	39,171,862	(179,289,946)	218,461,808
Balances at December 31, 2022	\$ 1,088,736,683	\$ 957,748,728	\$ 130,987,955

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the net pension liability of the County, calculated using the discount rate of 6.50%, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (5.50%) or 1-percentage point higher (7.50%) than the current rate:

1% Decrease (5.50%)	Current Discount Rate (6.50%)		% Increase (7.50%)
ć 202 C22 072	ć 120 007 0FF	۸	0.640.654

County's net pension liability \$ 283,622,872 \$

72 \$ 130,987,955 \$ 9,648,654

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the combining statements of fiduciary net position and changes in fiduciary net position in the supplementary information section of this report.

Notes to Financial Statements

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. For the period ended September 30, 2023, the County recognized no pension expense, as the measurement date of December 31, 2022 is the same as the prior reporting period. As a result of the change to the County's fiscal year end of September 30, 2023, all contributions to the plan during the period are included with deferred outflows for contributions subsequent to the measurement date. The pension liability attributable to the governmental activities will be liquidated by the General Fund and substantially all the special revenue funds. At September 30, 2023, the County reported pension-related deferred outflows of resources and deferred inflows of resources from the following sources:

Difference between expected and actual experience \$ 6,680,223 \$ 1,127,195 \$ 5,553,028 Changes in assumptions 18,892,254 - 18,892,254 Net difference between projected and actual earnings on pension plan investments 101,405,279 - 101,405,279 Changes in proportion and share of contributions 346,109 346,109 - 127,323,865 Total \$ 136,359,938 \$ 1,473,304 \$ 134,886,634		Deferred Outflows of Resources	Deferred Inflows of Resources	Net Deferred Outflows (Inflows) of Resources

The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the net pension liability for the year ending September 30, 2024. Other amounts reported as deferred outflows/inflows of resources related to the pension will be recognized in pension expense as follows:

Year Ended						
September 30,	Amount					
2024	\$	11,950,651				
2025		31,308,530				
2026	38,237,797					
2027		44,353,583				
Total	\$	125,850,561				

Payable to the Pension Plan. At September 30, 2023, the County reported a payable of \$463,957 to the pension plan.

Notes to Financial Statements

Road Commission Component Unit

The Road Commission provides retirement benefits to full-time employees through 401(k) and 457(b)(2) plans. The Road Commission also participates in a defined benefit pension plan with the Municipal Employee's Retirement System of Michigan (MERS). The defined benefit plan is closed to new hires. Complete disclosures related to the Road Commission's retirement plans are available in its separately-issued audit report.

Gerald R. Ford International Airport Authority

The Airport Authority participates in the Municipal Employees' Retirement System of Michigan (MERS), an agent multiple-employer defined benefit pension plan. Complete disclosures related to the Airport Authority's participation in MERS are available in its separately-issued audit report.

15. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Kent County Voluntary Employees' Beneficiary Association

Plan Description. The County administers a single-employer defined benefit healthcare plan (the "Plan") accounted for in the VEBA Trust Fund. In addition to the retirement benefits described in Note 14, the Plan provides health benefits to certain retirees, which are advance funded on an actuarial basis. Stand-alone financial reports are issued that include financial statements and required supplementary information for the Plan, which may be obtained from the County of Kent Fiscal Services Department, 300 Monroe Ave. N.W., Grand Rapids, MI 49503-2221.

Benefits Provided. The County provides a fixed monthly dollar subsidy of up to \$400 (\$350 for retirees before December 31, 2018) to be used by retirees toward health insurance premiums in a County-sponsored insurance plan. In addition, the County provides an implicit subsidy due to having one premium based on a blended rate that treats current employees, retirees, eligible beneficiaries and dependents as one homogeneous group. The implicit subsidy is factored into the actuarial computation of the OPEB liability. Effective 2016, the Collective Bargaining groups have begun to place retirees into separate groups for premium rating purposes for employees who were hired on or after January 1, 2016 (January 1, 2015 for Circuit Court Referees, FOP and Teamsters Parks; and July 1, 2016 for TPOAM and KCDSA).

Membership of the Plan consisted of the following at December 31, 2022:

Retirees and beneficiaries receiving benefits	770
Active plan members	1,564
Total	2,334

Notes to Financial Statements

Contributions. The contribution requirements of the Plan members and the County are established and may be amended by the County Board of Commissioners, in accordance with County policies, collective bargaining agreements, and Plan provisions. The Plan covers the Management Pay Plan, both exempt and non-exempt, elected officials, and ten collective bargaining units. Retirees and their beneficiaries are eligible for postemployment healthcare benefits if they are receiving a pension from the Kent County Employees' Retirement Plan. The County's funding policy provides for periodic employer contributions at actuarially determined rates that are expressed as percentages of annual covered payroll, and are designed to accumulate sufficient assets to pay benefits when due. The County's required cash contribution rate for the year ended December 31, 2022 was 3.04% of projected valuation payroll. For the year ended December 31, 2022, the County contributed \$6,919,582, including cash contributions of \$5,263,756 and an implicit rate subsidy (which did not require cash) of \$1,655,826. Cash payments included \$2,089,370 for current premiums and an additional \$3,174,386 to prefund benefits.

Retirees are responsible for reimbursing the County for the cost of premiums for the selected level of coverage in excess of the subsidy. The retiree's share of premiums can be deducted automatically from their monthly pension distribution, or paid directly to the County Treasurer. Since retirees must participate in one of the County's health insurance plans in order to receive the benefit, the entire cost of retiree health care premiums is accounted for in the County's health insurance internal service fund. Retiree reimbursements are reported as operating revenue in the internal service fund. On a quarterly basis, the total amount of retiree subsidies for the previous period is billed to the VEBA. This portion of premium costs, which includes the County subsidy only, comprises the entire amount of benefit payments in the Statement of Changes in Fiduciary Net Position.

Investment Policy. The Plan's policy in regard to the allocation of invested assets is established and may be amended by the Board of Trustees. The investment policy has been formulated based on consideration of a wide range of policies and describes the prudent investment process that the Board deems appropriate. The Plan's asset allocation policy is detailed below.

Rate of Return. For the year ended December 31, 2022, the annual money-weighted rate of return on investments, net of investment expense, was -14.07%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Concentrations. Information on the Plan's concentration of credit risk policy and compliance with that policy at December 31, 2022 is disclosed in Note 3 to the separately issued financial statements.

Notes to Financial Statements

Net OPEB Liability. The County's net OPEB liability was measured as of December 31, 2022. The components of the net OPEB liability of the County are as follows:

Total OPEB liability \$ 66,706,364 Plan fiduciary net position 44,330,003

County's net OPEB liability \$ 22,376,361

Plan fiduciary net position as percentage of total

OPEB liability 66.46%

Actuarial Assumptions. The total OPEB liability was determined by an actuarial valuation as of December 31, 2021, rolled forward to December 31, 2022, using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial cost method Entry-age normal

Amortization method Level percentage of payroll, Closed

Remaining amortization

period 19 years

Asset valuation method Smoothed fair value

Price inflation 2.5%

Salary increases 3.5% to 10.5%, including inflation

Investment rate of return 6.50%, net of OPEB plan investment expense, including inflation

Retirement age Experience-based table of rates that are specific to the type of

eligibility condition. Last updated for the 2018 valuation pursuant to the January 1, 2013 – December 31, 2017 Experience Study for the

Retirement Plan and Trust.

Mortality The RP-2014 Mortality Tables with 2-dimensional, fully generational

improvements projected with the MP-2018 Mortality Improvement Scales. These tables were first used for the December 31, 2018

valuation.

Health care trend rates Non-Medicare trend starting at 7.50% gradually decreasing to an

ultimate trend rate of 4.50%. Medicare trend starting at 5.75%

gradually decreasing to an ultimate trend rate of 4.50%.

Aging factors The tables used in developing the retiree premium are based on a

recent Society of Actuaries study of health costs.

Notes to Financial Statements

Long-term Expected Rate of Return. The long-term expected rate of return on VEBA plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of VEBA plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the VEBA plan's target asset allocation as of December 31, 2022 (see the discussion of the VEBA plan's investment policy in Note 2) are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return	Expected Money- Weighted Rate of Return
Core bonds	15.00%	2.58%	0.39%
Multi-sector fixed income	15.00%	3.54%	0.53%
Liquid absolute return	5.00%	3.25%	0.16%
U.S. large cap equity	30.00%	7.17%	2.15%
U.S. small cap equity	10.00%	8.61%	0.86%
Non U.S. equity	20.00%	8.29%	1.66%
Core real estate	5.00%	6.54%	0.33%
	100.00%		6.08%
Inflation			2.50%
Risk adjustment			-2.08%
Investment rate of return			6.50%

Discount Rate. The discount rate used to measure the total OPEB liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that contributions will be made at the current contribution rate and that Plan contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the VEBA plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on VEBA plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Notes to Financial Statements

Changes in the Net OPEB Liability. The components of the change in the net OPEB liability are summarized as follows:

	•	Total OPEB Liability (a)		Liability		Plan Fiduciary Net Position (b)		Net OPEB Liability (a) - (b)
Balances at December 31, 2021	\$	67,997,078	\$	48,174,698	\$	19,822,380		
Changes for the year:								
Service cost		1,364,355		-		1,364,355

3.50%)	4.50%)	5.50%)

County's net OPEB liability

\$ 19,084,078 \$ 22,376,361 \$ 25,980,929

OPEB Plan Fiduciary Net Position. Detailed information about the OPEB plan's fiduciary net position is available in the combining statements of fiduciary net position and changes in fiduciary net position in the supplementary information section of this report.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Other Postemployment Benefit Obligations. For the period ended September 30, 2023, the County recognized no OPEB expense, as the measurement date of December 31, 2022 is the same as the prior reporting period. As a result of the change to the County's fiscal year end of September 30, 2023, all contributions to the plan during the period are included with deferred outflows for contributions subsequent to the measurement date. The OPEB liability attributable to the governmental activities will be liquidated by the General Fund and substantially all the special revenue funds. At September 30, 2023, the County reported OPEB-related deferred outflows of resources and deferred inflows of resources from the following sources:

		Deferred Outflows of Resources		Outflows of Inflows of		nflows of	(et Deferred Outflows Inflows) of Resources
Difference between expected and								
actual experience	\$	2,602,218	\$	5,224,865	\$	(2,622,647)		
Changes in assumptions		1,581,173		=		1,581,173		
Net difference between projected and actual								
earnings on OPEB plan investments		5,207,031		-		5,207,031		
Changes in proportion and share of contributions		1,219,025		1,219,025				
		10,609,447		6,443,890		4,165,557		
Contributions subsequent to the measurement date		5,432,879		-		5,432,879		
Total	\$	16,042,326	\$	6,443,890	\$	9,598,436		

Notes to Financial Statements

The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the net OPEB liability for the year ending September 30, 2024. Other amounts reported as deferred outflows/inflows of resources related to the OPEB will be recognized in OPEB expense as follows:

Year Ended September 30,	Amount
2024	\$ 18,605
2025 2026	729,147 1,790,540
2027	1,917,219
2028 Thereafter	120,248 (410,202)
Total	\$ 4,165,557

Payable to the OPEB Plan. At September 30, 2023, the County reported a payable of \$221,331 to the VEBA plan.

Road Commission Component Unit

The Road Commission provides a defined benefit healthcare plan (the "Plan"), to certain retirees and their beneficiaries. Complete disclosures related to the Road Commission's other postemployment benefits plan are available in its separately-issued audit report.

Gerald R. Ford International Airport Authority

The Airport Authority contributes to a retiree health care savings account on behalf of eligible employees. The Airport Authority contributions total \$3,000 per year and employees are required to contribute 1% of covered payroll. Complete disclosures related to the Airport's retiree healthcare savings plan are available in its separately-issued audit report.

16. DEFERRED COMPENSATION PLAN

The County offers a supplemental retirement program in accordance with Section 457 of the Internal Revenue Code (IRC) that will provide for payments on retirement, as well as death benefits in the event of death prior to retirement. The benefits of the Plan assets are held in trust for the exclusive benefit of participants and their beneficiaries.

Notes to Financial Statements

17. FUND BALANCES - GOVERNMENTAL FUNDS

19. COMMITMENTS AND CONTINGENCIES

Landfill Closure and Post-closure Care

The Department of Public Works (DPW) has certain financial requirements related to closure and postclosure care of the landfills it operates. In relation to those requirements, the DPW has a surety bond totaling \$2,100,000 with the Michigan Department of Environment, Great Lakes and Energy as a beneficiary. The surety bond has not been drawn on at September 30, 2023. The DPW has recorded a liability of \$13,145,929 related to the Kentwood landfill, \$29,100,000 for the South Kent Landfill, and \$1,161,315 for the Sparta Landfill, as discussed below.

During 2008, the County purchased a parcel of land that included an unclosed landfill. This property is adjacent to one of the County's parks and is intended to be used as such after remediation. The remaining liability as of September 30, 2023 was \$24,529.

Notes to Financial Statements

Kentwood Landfill

Kent County took over operation of the Kentwood Landfill from the City of Kentwood in 1971. The site was capped and closed in 1976 and has been identified by the Environmental Protection Agency (EPA) as a "superfund". The County and the City of Kentwood entered into an agreement with the EPA in 1991 for remedial action to address the contamination. The expected future cost of post-closure care is \$13,145,929. The EPA is conducting an on-site review to assess remedial action every five years. The next review is scheduled for 2024. Cleanup and monitoring efforts are on-going and are expected to extend through the year 2059.

South Kent Landfill

State and federal laws and regulations require the DPW to place a final cover on the South Kent landfill site when waste is no longer accepted and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the DPW reports a portion of these closure and post-closure care costs as an operating expense in each period based on landfill capacity used as of each financial statement date. The estimated liability for closure and post-closure care was \$29,100,000 at September 30, 2023. The liability represents the cumulative amount reported to date based on the use of 80.00% of the estimated capacity of the landfill as of September 30, 2023. The DPW will recognize the remaining estimated cost of the closure and post-closure care of approximately \$7,200,000 as the remaining estimated capacity is filled. These amounts are based on what it would cost to perform all closure and post-closure care in 2023, less expenses paid. The DPW expects the current permitted area of the landfill to be at capacity in 2030 for ash and solid waste. Actual costs may be higher due to inflation, changes in technology or changes in regulations, and an annual adjustment may be required.

The DPW is required by state and federal laws and regulations to make annual contributions to a trust to finance closure and postclosure care. The DPW is in compliance with these requirements, and, at September 30, 2023, investments of \$2,967,560 are held for these purposes. These are reported as restricted assets on the statement of net position.

Sparta Landfill

The Sparta landfill site was capped and closed in 1995 and has been identified by the EPA as a "superfund". The County entered into an agreement with the EPA in 2000 for remedial action to address the contamination. The expected future cost of post-closure care is \$1,161,315. The EPA is conducting an on-site review to assess remedial action every five years. The next review is scheduled for 2027. Cleanup and monitoring efforts are on-going and are expected to extend through the year 2032.

Notes to Financial Statements

Commitments

Department of Public Works

The Department of Public Works has also entered into a management agreement to operate the Waste-to-Energy Facility (the "Facility") through the year 2030. The monthly service fee to be paid to the contractor is based on multiple calculations, including an operation and maintenance charge (based on processed waste in tons), pass-through costs, energy payments (based on number of kilowatt hours of net electricity sold), and monthly damages, if any.

The Department of Public Works has committed \$5,801,867 of net position related to waste-to-energy operations.

John Ball Zoological Corporation

The County executed a lease and operating agreement with the John Ball Zoological Corporation (the "Zoo Corporation"), a nonprofit corporation, for management of the John Ball Zoo. The County retained ownership of all real property which is being used by the Zoo Corporation for an initial period of 20 years, through December 31, 2034. All personal property and zoo collections, unless otherwise specified in the agreement, became the property of the Zoo Corporation for the term of the agreement. The lease rental rate is \$20 for the entire term of the agreement. This lease is a non-exchange agreement as there is a nominal fee which does not represent an exchange or exchange-like transaction. The lease is renewable for two additional 20-year periods. As compensation for management and maintenance of the zoological gardens, the County pays an annual management fee to the Zoo Corporation. In November 2016, the voters approved a 10-year property tax millage for the Zoo Corporation and Grand Rapids Public Museum. Per the terms of the management agreement, the annual management fee is reduced by any voter-approved property tax millage. Accordingly, the County does not expect to pay a management fee for years 2024-2026. Future minimum commitments are as follows:

Year Ended September 30,	Amount	Covered by roperty Tax Millage	C	ommitment
2024	\$ 2,000,000	\$ (2,000,000)	\$	-
2025	2,000,000	(2,000,000)		-
2026	2,000,000	(2,000,000)		-
2027	2,000,000	-		2,000,000
2028	2,000,000	-		2,000,000
2029-2033	10,000,000	-		10,000,000
2034	2,000,000	-		2,000,000
Total	\$ 22,000,000	\$ (6,000,000)	\$	16,000,000

Notes to Financial Statements

Grand Rapids Whitewater, Inc.

The County has entered into an agreement with Grand Rapids Whitewater, Inc. (GRWW) a Michigan non-profit. GRWW has developed the Restore the Rapids project, which is a plan to restore the Grand River rapids generally from the Ann Street bridge downriver to Fulton Street bridge. The County has committed to contributing a total of \$1,400,000 to the project (\$500,000 was paid in 2020 and \$900,000 is anticipated to be paid in future years based on completion milestones).

Convention Facility Commitment – Primary Government

Under the terms of a contract with the City of Grand Rapids and County of Kent Joint Building Authority, the County and the City are jointly liable for payments equal to certain bond obligations of the Authority for a convention facility. Annual payments to the Authority are to be funded with lodging excise tax revenue, accounted for in the lodging excise tax special revenue fund. Expenses under this agreement amounted to \$6,200 for the period ended September 30, 2023.

Under the terms of agreements with the City of Grand Rapids and County of Kent Joint Building Authority, the County is obligated to use lodging excise tax revenues to pay principal and interest on selected bonds issued by the Joint Building Authority. At September 30, 2023, there are two such bond issues of the Joint Building Authority dated November 29, 2001 and May 15, 2013, with balances of \$20,719,324 and \$310,000, respectively. The County becomes liable for the debt in the event that lodging excise tax revenue is not sufficient to lease obligations. Future minimum rental commitments are as follows:

Year Ended September 30,		Amount
2024	\$	8,576,200
	Ş	, ,
2025		8,575,000
2026		8,900,000
2027		9,240,000
2028		9,595,000
2029-2031		42,165,000
Total	\$	87,051,200

20. SUBSEQUENT EVENTS

In October 2023, the County's Sheriff department entered into an agreement that will result in lease and SBITA liabilities at a total cost of \$7,165,391 for fleet technology and related equipment in the General Fund. The arrangement is payable through October 2029. The County will use the incremental borrowing rate for calculation of the lease and SBITA liabilities.

In November 2023, the County entered into a SBITA at a total cost of \$12,285,000 for enterprise resource planning software. The arrangement is payable through September 30, 2033.

Notes to Financial Statements

Gerald R. Ford International Airport Authority

In April, 2023, the Airport Authority issued \$159.4 million in Series 2023A Revenue Bonds. These bonds were issued to provide funds to pay a portion of the costs of certain capital acquisitions and improvements at the Airport Authority and make deposits to Bond Reserve Accounts. The bonds are made up of various components with maturity dates ranging from 5 to 30 years at fixed interest rates ranging from 4.6% to 5.5%.

21. OPIOID SETTLEMENT

The County is part of a \$21 billion nationwide settlement reached in July 2021 to resolve all Opioids litigation brought by states and local political subdivisions against the three largest pharmaceutical distributors: McKesson, Cardinal Health, and AmerisourceBergen (Distributors), and a \$5 billion nationwide settlement with manufacturer Janssen Pharmaceuticals, Inc. and its parent company Johnson & Johnson (Janssen). The term of the settlement varies by entity; however, the County expects to receive eighteen (18) installments from the Distributors with the first three installments being paid early in 2023 in the amount of \$688,918 and the remaining 15 installments expected to be made annually beginning in 2024. Additionally, the County expects to receive eleven (11) installments from Janssen with the first five installments being paid early in 2023 in the amount of \$1,343,404 and the remaining installments expected to be made annually beginning in 2026. The County is currently allocated approximately 3.003% of the total State of Michigan local unit settlement and the total amount of the settlement is expected to be \$8,597,739 and \$1,963,557 from the Distributors and Janssen, respectively.

As a result of the payment terms issued to the Directing Administrator of the National Opioid Settlements, the receivable for the Distributor and Janssen settlement agreements was recorded at the net present value, using a discount rate for payments to be received subsequent to 2023 of 3%. The net present value of the combined settlement payments to be received as of September 30, 2023 is \$6,835,359.

Additional settlements with pharmacies and manufacturers were entered into during 2022, including CVS, Walgreens, Walmart, Allergan and Teva. However, as of September 30, 2023, the amounts to be allocated to and collected by the County were not able to be determined, and as such, no amounts have been reported related to these settlements in the financial statements.

22. RESTATEMENT

The separately issued discretely presented component unit, Airport Authority, restated beginning net position by an increase of \$283,160 during the current year. The restatement was a result of the adoption of GASB 87, *Leases*.

Effective beginning with the September 30, 2023 fiscal year end, the County changed its fiscal year end from December 31 to September 30.

Notes to Required Supplementary Information

Budget Policy and Compliance

Budgets presented in the financial statements were prepared on the same basis as the accounting basis used to reflect actual results. The General Fund and special revenue funds are subject to legal budgetary accounting controls and all are budgeted annually. Debt service funds are also included in the budgetary process; however, State statutes do not require legally adopted budgets for such funds. The County follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The County Administrator submits to the Finance and Physical Resources Committee a proposed operating budget for the fiscal year commencing the first day of the following fiscal year.
- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. Prior to the first day of the following fiscal year, the budget is legally enacted through passage of a resolution.
- 4. Formal budgetary integration is employed for the governmental fund types as a management control device.
- 5. Budgets for the General Fund and special revenue funds are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 6. Budgets are adopted and are authorized by resolution at the department (activity) level within funds by the County Board of Commissioners. This is the local legal level of budgetary control. All unexpended and unobligated appropriations lapse at year-end with the exception of grants and capital projects with a multivear life.
- 7. Adoption and amendments of all budgets used by the County are governed by Public Act 621, which was followed during the year. The appropriations resolution is based on the projected expenditures budget of the department heads of the County. Any amendment to the original budget must meet the requirements of Public Act 621. Any revisions that increase the total expenditures of any fund must be approved by the County Board of Commissioners. The County Administrator is authorized to transfer budgeted amounts within an activity, subject to the condition that the total expenditures do not exceed the approved appropriations by activity. Supplemental appropriations were necessary during the year.

P.A 621 of 1978, as amended, provides that a local unit shall not incur expenditures in excess of the amount budgeted. The budget is prepared by fund, function (e.g. public safety) and department (e.g. Sheriff). Department heads may transfer resources within the activities they manage up to Board-approved appropriation amounts. These activities may reside in different funds. In special instances related to grants, the County Administrator/Controller is authorized to make budget adjustments within and between categories of budgets up to 15% of the grant appropriation. Transfers between departmental budgets and above administrative amounts set by the Board need special approval from the governing body. The budgetary schedules presented in the financial statements are at a greater level of detail than the legal level of budgetary control. During the current period, there were no expenditures in excess of budgeted amounts.

The County issues a separate annual budgetary report which provides additional information on historical budget data.

Notes to Required Supplementary Information

Employees' Retirement Plan

Notes to the Schedule of Changes in the County's Net Pension Liability (Asset) and Related Ratios

The December 31, 2021 valuation incorporates an assumption change in the discount rate from 6.75% to 6.50%.

The December 31, 2018 valuation incorporates assumption changes in accordance with the experience study dated November 8, 2018 and adopted by the Board on November 14, 2018. The adopted changes are summarized as follows: 6.75% investment return assumption; 3.50% wage inflation assumption; MP-2018 mortality projection scale; decrease retirement rates; decrease withdrawal rates.

The December 31, 2016 and 2015 valuations incorporate changes to the benefit provisions and assumptions as of the measurement date were reflected in the rolled-forward total pension liability. These changes include updates to the mortality assumption and the non-duty disability provision for certain groups.

The December 31, 2015 valuation incorporates assumption changes that had a significant impact on the total pension liability from the prior measurement date. The most significant changes were related to the non-duty disability provision and the member contribution rate for certain groups.

GASB 67 was implemented in 2014. This schedule is being built prospectively. Ultimately, 10 years of data will be presented.

Notes to the Schedule of Contributions

Valuation Date Actuarially determined contribution rates are calculated as of

> December 31, which is 21 months prior to the beginning of the fiscal year in which contributions are reported. The actuarial assumptions noted below relate to the most recent valuation, dated December 31, 2021.

Changes in assumptions have been identified where applicable.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry-age normal

Amortization method Level percentage of payroll, closed

Remaining amortization period 18 years

Asset valuation method 4-year smoothed fair value

Inflation 3.5%

Salary increases 3.5%-10.5%, including inflation

6.50% Investment rate of return

Experience-based table of rates that are specific to the type of eligibility Retirement age

condition. Last updated for the 2018 valuation pursuant to the January 1,

2013 – December 31, 2017 Experience Study.

Mortality The RP-2014 Mortality Tables with 2-dimensional, fully generational

> improvements projected with the MP-2018 Mortality Improvement Scales. These tables were first used for the December 31, 2018 valuation.

Cost-of-living adjustment Varies from 1% to 3%, depending on union

December 31, 2021 actuarial valuation.

Voluntary Employees' Beneficiary Association (VEBA) Trust Fund

Notes to the Schedule of Changes in the County's Net OPEB Liability and Related Ratios

The December 31, 2021 valuation incorporates assumption changes, including: reduced the assumed rate of return from 6.75% to 6.50% and reset the health care trend rate to increase by 8.25% in 2022 and trending down to 4.5% in 2036.

The December 31, 2018 valuation incorporates assumption changes in accordance with the pension experience study dated November 8, 2018 and adopted by the Board on November 14, 2018. Further the healthcare specific assumptions were investigated in the experience study dated February 8, 2018. The adopted changes are summarized as follows: 6.75% investment return assumption; 3.50% wage inflation assumption; MP-2018 mortality projection scale; decrease retirement rates; decrease withdrawal rates; lowered election percentage assumptions; public act 202 healthcare trend assumption. The overall impact of the assumption changes increased the contribution rate by 0.25% and slightly reduced the funded ratio.

For the December 31, 2018 valuation a benefit change was reflected for future retirees: the maximum monthly flat dollar stipend increased from \$350 to \$400. The benefit change increased the employer contribution rate by 0.18% and slightly reduced the funded ratio.

The December 31, 2017 valuation incorporates assumption changes, including: reduced the assumed rate of return from 7.5% to 7.0%; changed the amortization period from 30 years open to 23 years closed; reset the health care trend rate to increase by 9.0% in 2018 and trending down to 4.0% in 2028.

GASB 74 was implemented in fiscal year 2017. This schedule is being built prospectively. Ultimately, 10 years of data will be presented.

Notes to the Schedule of Contributions

Valuation Date December 31 of the year prior to the fiscal year in which the

contributions are expected to be made.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry-age normal

Amortization method Level percentage of payroll, closed

Remaining amortization

period 20 years

Asset valuation method Smoothed fair value

Price inflation 2.5%

Salary increases 3.5% to 10.5%, including inflation

Investment rate of return 6.50%, net of OPEB plan investment expense, including inflation

Notes to Required Supplementary Information

Retirement age Experience-based table of rates that are specific to the type of eligibility

condition. Last updated for the 2018 valuation pursuant to the January 1, 2013 – December 31, 2017 Experience Study for the Retirement Plan and

Trust.

Mortality The RP-2014 Mortality Tables with 2-dimensional, fully generational

improvements projected with the MP-2018 Mortality Improvement Scales. These tables were first used for the December 31, 2018 valuation.

Health care trend rates Non-Medicare: Trend starting at 8.25% and gradually decreasing to an

ultimate trend rate of 4.50%.

Medicare: Trend starting at 6.50% and gradually decreasing to an

ultimate trend rate of 4.50%.

Aging factors The tables used in developing the retiree premium are based on a recent

Society of Actuaries study of health costs.

Expenses Investment expenses are net of the investment returns; Administrative

expenses are included in the premium costs.

GASB 74 was implemented in fiscal year 2017. This schedule is being built prospectively. Ultimately, 10 years of data will be presented.

Nonmajor Governmental Funds

Special Revenue Funds

Fire Prevention Fund – accounts for the acquisition of fire trucks for participating local units of government. Financing is provided by participating units and General Fund appropriations.

Friend of the Court Fund – accounts for revenue and expenditures of the Friend of the Court office as required in Public Acts 294 – 298 of 1982. This fund also accounts for administration of the Title IV-D cooperative reimbursement program.

Health Fund — accounts for specific revenue set aside for the purpose of providing health protection for people within the County. Revenues are provided through state and federal grants and General Fund appropriations.

Lodging Excise Tax Fund – accounts for expenditures incurred in promoting Kent County and maintaining, acquiring, or constructing its public convention and entertainment facilities. Revenues are provided by the excise tax on transient room rentals.

Ready by Five Millage Fund — accounts for the proceeds of a dedicated millage levied to support services provided for early childhood development.

Correction and Detention Facilities Fund — accounts for the proceeds of a dedicated millage levied to pay for operations and debt service related to the expansion of the correction and detention facilities.

Register of Deeds Automation Fund – accounts for funds set aside under provisions of Public Act 698 of 2002 (MCL 600.2568) for upgrading technology in the Register of Deeds' office.

Zoo and Museum Millage Fund – accounts for the proceeds of a dedicated millage levied for operations, capital improvements, and educational opportunities at John Ball Zoo and the Grand Rapids Public Museum.

Senior Millage Fund – accounts for the proceeds of a dedicated millage levied to plan, coordinate, evaluate and provide services to persons 60 years of age or older.

Indigent Defense Fund – accounts for earmarked state grant revenue to provide indigent defendants in criminal cases with effective assistance of counsel. This fund is required by the Michigan Indigent Defense Commission (MIDC) Act, Public Act 93 of 2013, as amended.

Central Dispatch Collection Fund – accounts for the collection of 911 surcharge revenue on mobile and other phone devices, and disbursement of such funds to the Kent County Dispatch Authority.

Concealed Pistol License Fund – accounts for the deposit of fees collected for the County Clerk under the Firearms Act 372 of 1927 (MCL 28.425x) for the regulation and licensing of certain firearms.

Local Corrections Officers Training Fund — accounts for the deposit of booking fees charged to each inmate when first admitted into the County jail. The booking fee, when collected, is used as a source of revenue for local correctional officers training programs. The County retains \$10 of the \$12 booking fee and the remaining \$2 is required to be remitted to the State.

Nonmajor Governmental Funds

Drug Forfeiture Fund – accounts for revenue awarded to the County related to assets seized from activities involved in the violation of controlled substances statutes, Public Act 135 of 1985 (MCL 333.7523). Authorized expenditures include expenses of seizure, forfeiture and sale of property. The balance remaining must be used to enhance law enforcement efforts.

State Project Fund – accounts for the expenditures and revenues of various activities financed by restricted grants of the State. Projects lengths vary from annually renewable to multi-year.

Project Fund – accounts for the expenditures and revenues of various activities financed primarily by restricted grants or special revenues from sources other than the State and Federal government. Projects are renewable annually.

LTD Project Fund — accounts for the expenditures and revenues of various activities financed primarily by restricted grants or special revenues from sources other than the State and Federal government. Projects are multi-year.

Federal Project Fund — accounts for the expenditures and revenues of various activities financed by restricted grants of the Federal government. Project lengths vary from annually renewable to multi-year.

Community Development Federal Project Fund — accounts for the improvement, rehabilitation and preservation of public facilities in target areas as well as the issuance and repayment of rehabilitation loans. Financing is provided by Community Development Block Grants and program income.

Kent County Community Action Funds — accounts for the expenditures and revenues of various activities financed by restricted grants of the State and Federal governments, as well as local contributions. Project lengths vary from annually renewable to multi-year.

Opioid Settlement Fund – accounts for the expenditures and revenues of the national opioid settlements.

Child Care Fund — accounts for the care of neglected, abused and delinquent juveniles. Revenues are provided through state reimbursements and General Fund appropriations.

Veterans' Millage Fund – accounts for the proceeds of a dedicated millage levied to plan, coordinate, evaluate and provide services to qualified veterans.

Capital Project Fund

Building Authority Capital Project Fund — accounts for construction projects of the Building Authority. Financing is provided by bonds, investment earnings, and subsidies from the General Fund.

Nonmajor Governmental Funds

Debt Service Fund

General Debt Service Fund – accounts for the retirement of principal and related interest and fiscal charges on long-term debt issued to fund various capital acquisitions within the County. Financing for the Human Services Complex is supported by a lease with the State of Michigan and the City of Grand Rapids.

Building Authority Debt Service Fund – accounts for the retirement of principal and related interest and fiscal charges on long-term debt of the Kent County Building Authority. Such buildings currently include the sheriff's building and the courthouse. Financing for the correctional facility is supported by a dedicated tax millage paid by County property owners.

Drainage Districts Component Unit

The drainage districts consist of over 500 individual districts created for alleviating drainage problems. Each drainage district accounts for the construction, maintenance, and financing costs associated with its drain program. Each individual district is a separate legal entity with power to assess the benefiting communities, including the County and the State of Michigan, for road drainage. The Kent County Drain Commissioner manages the drainage districts with the Kent County Board of Commissioners exercising legislative oversight. The County is a direct beneficiary of the service provided and its employees run the day-to-day operations. In addition, the County often pledges its full faith and credit for the long-term debt of the drainage districts.

Reconciliation

Net Changes in Fund Balances of Governmental Funds to Change in Net Position of Component Units Drainage Districts Component Unit For the Period Ended September 30, 2023

Net change in fund balances - total governmental funds

\$ 571,886

Amounts reported for the *component unit* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Special assessments receivable are long-term in nature and are collectable over several years.

Depreciation expense	(333,164)
Capital assets purchased/constructed	522,113

However, the current receipts are reflected as revenues on the fund statements.

Change in deferred inflows for installment sales agreement receivable 94,335

Change in deferred inflows for special assessments receivable 766,148

Bond proceeds provide current financial resources to governmental funds in the period issued, but issuing bonds increases bonds, notes and other long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces bonds, notes and other long-term liabilities in the statement of net position.

Principal payments on bonds	165,000
Amortization of bond premium	68,009
Change in accrued interest payable on bonds payable	(119,451)

Change in net position of component unit _\$ 1,734,876

⁽¹⁾ GASB 68 was implemented for the fiscal year ended December 31, 2015. This resulted in presentation of the County's net pension liability on the statement of net position. Prior years were not restated.

Effective beginning with the September 30, 2023 fiscal year end, the County changed its fiscal year end from December 31 to September 30.

⁽²⁾ Effective July 1, 2016, operations of the Kent County Airport were transferred to a legally-separate authority. The Authority is reported as a discretely-presented component unit and is not included in the table above.

⁽³⁾ GASB 75 was implemented for the fiscal year ended December 31, 2017. This resulted in presentation of the County's net OPEB liability on the statement of net position. Prior years were not restated.

⁽¹⁾ For taxes levied in 1995, and each year thereafter, the legislature shall provide for the taxable value of each parcel of property not to increase by more than the increase in the immediately preceding general price level (CPI), or 5%, whichever is less, until such time as ownership of the property is transferred. When ownership of the parcel is transferred, the parcel shall be assessed at the applicable proportion of the current true cash value.

According to State statute, taxable property is to be assessed at 50% of market value (State equalized assessed value)

Effective beginning with the September 30, 2023 fiscal year end, the County changed its fiscal year end from December 31 to September 30.

Source: Kent County Bureau of Equalization

⁽²⁾ Includes tax-exempt property

⁽³⁾ Includes taxes that have been abated (i.e. Renaissance Zones) and/or have been captured by other tax increment finance authorities.

Computation of Direct and Overlapping Debt September 30, 2023 (Unaudited)

DEBT STATEMENT

The following table reflects a breakdown of the County's direct and overlapping debt as of September 30, 2023.

Bonds designated as LTGO are limited tax pledge bonds or notes.

				Self				
				Supporting				
				or Portion				
				Paid by				Percent of
				Benefitting			Per	Estimated
Direct Debt		Gross	ı	Municipality		Net	Capita	Actual Value
CIP Bond Series	\$	70,635,109	\$	28,743,618	\$	41,891,491		
Contracts Payable		260,576		-		260,576		
Leases		355,046		-		355,046		
SBITAs		1,533,524		-		1,533,524		
Kent County Building Authority (LTGO)		12,430,311		3,251,769		9,178,542		
Michigan Transportation Fund Bonds		18,137,251		18,137,251		<u>-</u>		
Total Direct Debt	\$	103,351,817	\$	50,132,638	\$	53,219,179	\$ 156.81	0.12%
County Overlapping Debt (1) (2)								
Cities, Villages and Townships	\$	229,341,202			\$	229,341,202		
School Districts		1,852,727,951			1	1,852,727,951		
Community College and Intermediate								
School Districts		20,930,697				20,930,697		
Total Overlapping Debt	\$:	2,102,999,850			\$ 2	2,102,999,850	\$ 3,190.80	2.49%
Total County Direct Debt and								
Overlapping Debt	\$:	2,206,351,667	\$	50,132,638	\$ 2	2,156,219,029	\$ 3,347.61	2.61%

⁽¹⁾ Overlapping debt is the portion of other public debt for which a County taxpayer is liable in addition to the Direct Debt of the County. It is calculated based on the local unit's proportionate share of real property taxable values.

 $^{^{(2)}}$ Outstanding balances are reported as of September 30, 2023
